Economy, Transport & Environment Services

<u>Finance and Performance Report (F&PR) – May 2017 for Economy & Environment Committee</u>

1. **SUMMARY**

1.1 Finance

Previous Status	Category	Target	Current Status	Section Ref.
Green	Income and Expenditure	Balanced year end position	Green	2
Green	Capital Programme	Remain within overall resources	Green	3

1.2 Performance Indicators – Predicted status at year-end: (see section 4)

Monthly Indicators	Red	Amber	Green	Total
Current status this month	2	4	8	14
Year-end prediction (for 2017/18)	1	6	7	14

2. **INCOME AND EXPENDITURE**

2.1 Overall Position

Forecast Variance - Outturn (Previous Month)	Directorate	Current Budget for 2017/18	Current Variance	Current Variance		Forecast Variance - Outturn (May)
£000		£000	£000	%	£000	%
	Executive Director	206	+3	+2	0	0
	Infrastructure					
	Management &					
	Operations	58,147	-79	-2	+23	0
	Strategy & Development	12,094	-53	-4	+38	0
	External Grants	-32,051	0	0	0	0
	Total	38,397	-128	-2	+62	0

The service level budgetary control report for May 2017 can be found in appendix 1.

Further analysis of the results can be found in appendix 2.

2.2 Significant Issues

Waste Private Finance Intiative (PFI) Contract

From when the Waste PFI Contract first started in 2008, the annual budget setting process was kept separate to the standard County Council approach. The budget flexed up or down annually depending on the relative performance of the Mechanical Biological Treatment (MBT) Plant and any pressures or flexibilities. In 2016/17, this approach changed, and the underlying pressure of £1.4m was not funded but "held" pending consideration of discussions with experts from Department for Environment, Food and Rural Affairs(DEFRA) on possible savings. This underlying pressure rolled forward into 2017/18 so although there is a £5m of savings target across the next three years, the profile of these savings did not address the fact that there was an underlying pressure of £1.4m which limited the ability to achieve the savings target in the first year as the first savings only brought the budget back into balance.

Significant work is currently underway to model different levels of MBT performance and come to a view on the likely in-year financial position. At the same time, all budget holders across ETE are reviewing their budgets to identify if there are any areas of underspend (either one-off, which will help offset the waste pressure this financial year) or ongoing (which can be brought out in the Business Plan) which can be used to offset the in year pressure in waste. The overall financial position will be reported in the June Finance & Performance Report.

2.3 Additional Income and Grant Budgeted this Period (De minimis reporting limit = £30,000)

There were no items above the de minimis reporting limit recorded in May 2017.

A full list of additional grant income can be found in appendix 3.

2.4 Virements and Transfers to / from Reserves (including Operational Savings Reserve)

(De minimis reporting limit = £30,000)

Waste

In the Business Plan, the financial impact of the predicted 1.4% population growth on service provision across the Council was held within Corporate Services, pending services demonstrating there has been an impact due to the population growth which cannot be contained within their revenue budget. Excluding the impact of garden waste, which is variable and dependent on seasonal weather and growing conditions, waste tends to increase proportionate to the population increase, and this has been the case across the last year and hence the £170K demand funding is required to fund the increased landfill tax costs and recycling credits based on a 1.4% increase in population. The virement is reflected within the May F&PR on the basis that it will be approved by General Purposes Committee (GPC). If GPC were not to approve the virement, this would create an additional pressure within the waste budget.

In the Business Plan, an estimated figure was included for the inflationary uplift of the Waste contract, the actual contract increase is in fact higher than that budgeted and will incur additional costs of £200k. The virement of £200k is reflected within the May F&PR on the basis that it will be approved by GPC. If GPC were not to approve the virement, this would create an additional pressure within the waste budget.

A full list of virements made in the year to date can be found in appendix 4.

3. BALANCE SHEET

3.1 Reserves

A schedule of the Service's reserves can be found in appendix 5.

3.2 Capital Expenditure and Funding

Expenditure

King's Dyke

Final land negotiations are concluding and some pressures are emerging which are being evaluated and quantified. A more detailed position will be presented to Economy & Environment Committee in August.

Ely Southern Bypass

The phasing of the work is being reviewed due to issues with service diversions as well as the profile of expenditure and any impact on costs. Once the outcome of this work is finalised it will be reported and reflected in the forecast position.

<u>Funding</u>

Two additional grants have been awarded from the Department for Transport since the published business plan, these being Pothole grant funding (£1.155m) and the National Productivity fund (£2.89m).

All other schemes are funded as presented in the 2017/18 Business Plan.

A detailed explanation of the position can be found in <u>appendix 6</u>.

4. **PERFORMANCE**

4.1 Introduction

This report provides performance information for the new suite of key Economy, Transport & Environment (ETE) indicators for 2017/18. At this stage in the year, we are still reporting 2015/16 information for some indicators.

New information for red, amber and green indicators is shown by Committee in Sections 4.2 to 4.4 below, with contextual indicators reported in Section 4.5. Further information is contained in Appendix 7.

4.2 Red Indicators (new information)

This section covers indicators where 2017/18 targets are not expected to be achieved.

a) Economy & Environment

No new information this month.

b) ETE Operational Indicators

No new information this month.

4.3 Amber indicators (new information)

This section covers indicators where there is some uncertainty at this stage as to whether or not year-end targets will be achieved.

a) Economy & Environment

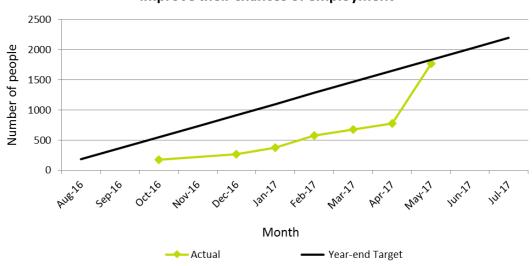

Adult Learning and Skills

The number of people in the most deprived wards completing courses to improve their chances of employment or progression in work (May 2017)
 Figures to the end of May show that there are currently 1774 learners taking courses in the most deprived wards. Figures are expected to increase during the year as partners run multiple short courses.

A targeted programme has started, focusing on increasing the participation in these deprived areas.

The number of people completing courses will not be recorded until the end of the academic year. The target of 2,200 is end-of-year.

People in the most deprived wards completing courses to improve their chances of employment

Economic Development

• The percentage of 16-64 year-old Cambridgeshire residents in employment: 12month rolling average (to December 2016)

The latest figures for Cambridgeshire have recently been published by the Office for National Statistics (ONS).

The 12-month rolling average is 78.5%, which although it has increased slightly from the last quarterly rolling average, is still below the 2016/17 target range of 80.9% to 81.5%. It is above both the national figure of 74.0% and the Eastern regional figure of 76.8%.

11.8% of employed 16-64 year old Cambridgeshire residents are self-employed and 66.7% are employees.

Due to economic uncertainty the target remains challenging.

% of 16-64 year-old Cambridgeshire residents in employment: 12-month rolling average

Economy

• 'Out of work' benefits claimants – narrowing the gap between the most deprived areas (top 10%) and others (at November 2016)

The 2016/17 target of <=11.5% is for the most deprived areas (top 10%).

Latest figures published by the Department for Work and Pensions show that, in August 2016, 10.8% of people aged 16-64 in the most deprived areas of the County were in receipt of out-of-work benefits, compared with 4.8% of those living elsewhere in Cambridgeshire.

The gap of 6.0 percentage points is lower than the last quarter and is currently achieving the target of <=6.5 percentage points.

Traffic and Travel

 The average journey time per mile during the morning peak on the most congested routes (September 2015 to August 2016)

At 4.52 minutes per mile, the latest figure for the average morning peak journey time per mile on key routes into urban areas in Cambridgeshire is better than the previous year's figure of 4.87 minutes.

The target for 2017/18 is to reduce this to 4 minutes per mile.

b) ETE Operational Indicators

No new information.

4.4 Green Indicators (new information)

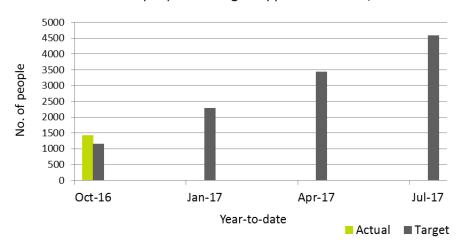

The following indicators are currently on-course to achieve year-end targets.

a) Economy & Environment

Adult learning and skills

The number of people starting as apprentices – academic year, 2016/17
 Provisional figures for the number of people starting as apprentices during the first quarter of 2016/17 is 1,420, compared with 1,300 for the same quarter in 2015/16 - an increase of 9%. This means that the 2016/17 target of 4,574 is on track to be achieved.

Number of people starting as apprentices 2016/17

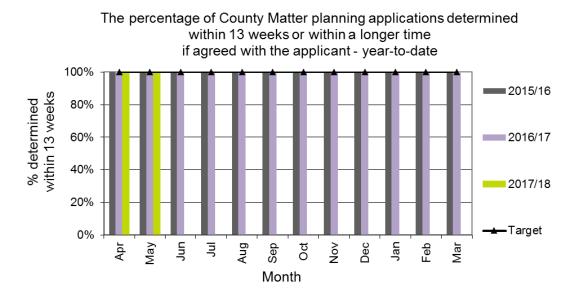

Planning applications

The percentage of County Matter planning applications determined within 13
weeks or within a longer time period if agreed with the applicant - year-to-date (to
May 2017)

Three County Matter planning applications have been received and determined on time since the beginning of the 2017/18 financial year.

There were two other applications excluded from the County Matter figures. These were applications that required minor amendments or Environmental Impact Assessments (a process by which the anticipated effects on the environment of a proposed development is measured). Both applications were determined on time.

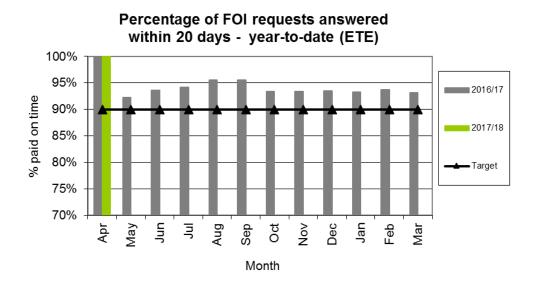

b) ETE Operational Indicators

Freedom of Information (FOI) requests

Freedom of Information (<u>FOI</u>) requests - % responded to within 20 days (<u>April 2017</u>)
 26 Freedom of Information requests were received during April 2017. Provisional figures show that 100% were responded to on time.

26 Freedom of Information requests have been received since April 2017 and 100% of these have been responded to on-time. This compares with 100% (out of 23) and 100% (out of 23) for the same period last year and the year before.

Complaints and representations – response rate

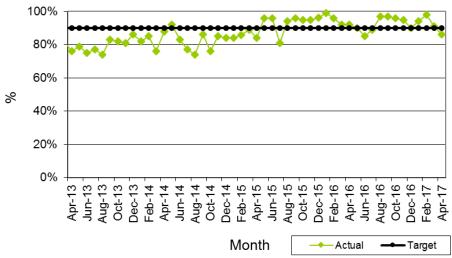

Percentage of complaints responded to within 10 days (April 2017)
 38 complaints were received in April 2017. 86% of these were responded to within 10 working days.

The majority of complaints for Infrastructure Management & Operations were for Highways and 19 out of the 25 received were responded to on time.

The majority of complaints received by Strategy & Development were for Passenger Transport and all 13 out of the 13 received were responded to within 10 days.

The year-to-date figure is currently 86%.

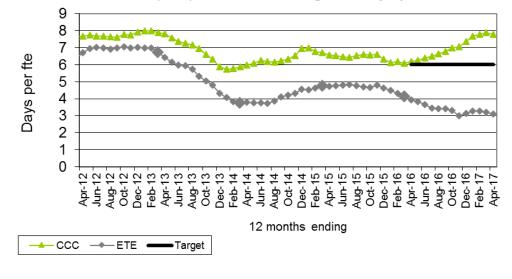

Staff sickness

<u>Economy</u>, <u>Transport & Environment staff sickness per full time equivalent (f.t.e.) - 12-month rolling average (to May 2017)</u>

The 12-month rolling average has reduced slightly at 3.0 days per full time equivalent (f.t.e.) which is below (better than) the 6 day target.

During May the total number of absence days within Economy, Transport & Environment was 133 days based on 534 staff (f.t.e) working within the Service. The breakdown of absence shows that 68 days were short-term sickness and 65 days long-term sickness.

4.5 Contextual indicators (new information)

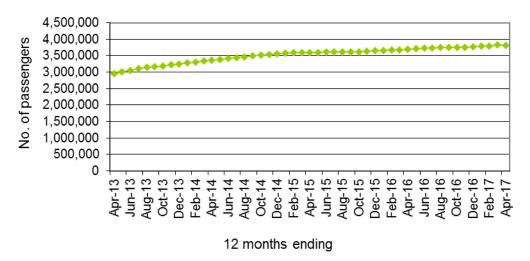

a) Economy & Environment

Passenger Transport

Guided Busway passenger numbers (May 2017)

The Guided Busway carried 331,395 passengers in May. There have now been over 19.6 million passengers since the Busway opened in August 2011. The 12-month rolling total is 3.84 million.

Guided Busway passengers: 12-month rolling total

APPENDIX 2 – Commentary on Forecast Outturn Position

Number of budgets measured at service level that have an adverse/positive variance greater than 2% of annual budget or £100,000 whichever is greater.

Service	Current Budget for 2017/18	Current Variance		Variance		
	£'000	£'000	%	£'000	%	
Waste Disposal incl PFI	34,160	+187	+9	0	0	

The waste budget assumes the MBT is operating at 35% performance but in the first two months of the financial year performance was 28%, and also there is a significant pressure on 3rd Party Income. However, we are currently reviewing the activity data in detail and will be able to report the actual in-year pressure, once known, in the June F&PR.

Parking Enforcement	0	-132	+23	0	0
---------------------	---	------	-----	---	---

Income from City centre access cameras is currently ahead of budget but is not expected to continue at this level as drivers get used to the new restrictions.

Coroners 780 -21 -21 +72

Costs in this area has increased partly due to more deaths and also an increase in costs relating to Assistant Coroners.

There is likely to be a significant underspend on concessionary fares based on last year's level of activity but until the first set of performance data confirms the trend is ongoing service is forecasting a nil variance. The updated position will be reported in the June F&PR.

APPENDIX 3 – Grant Income Analysis

The table below outlines the additional grant income, which is not built into base budgets.

Grant	Awarding Body	Expected Amount £'000
Grants as per Business Plan	Various	32,051
Non-material grants (+/- £30k)		0

66,013	Total including Capital Programme variations	67,295	1,223	67,295	0		

The increase between the original and revised budget is partly due to the carry forward of funding from 2016/17, this is due to the re-phasing of schemes, which were reported as underspending at the end of the 2016/17 financial year. The phasing of a number of schemes have been reviewed since the published business plan and this has included a reduction in the required budget in 2017/18, for King's Dyke. This still needs to be agreed by GPC.

Two additional grants have been awarded since the published business plan, these being Pothole grant funding and the National Productivity fund.

The Capital Programme Board have recommended that services include a variation budget to account for likely slippage in the capital programme, as it is sometimes difficult to allocate this to individual schemes in advance. As forecast underspends start to be reported, these are offset with a forecast outturn for the variation budget, leading to a balanced outturn overall up to the point when slippage exceeds this budget. The allocations for these negative budget adjustments have been calculated and shown against the slippage forecast to date.

King's Dyke

Final land negotiations are concluding and some pressures are emerging which are being evaluated and quantified. A more detailed position will be presented to E&E Committee in August.

Ely Southern Bypass

The phasing of the work is being reviewed due to issues with service diversions and the profile of expenditure and any impact on costs. Once the outcome of this work is finalised it will be reported and reflected in the forecast position.

Capital Funding

					Others = 4.8%				compared with 4.8% of those living elsewhere in Cambridgeshire.
									The gap of 6.0 percentage points is lower than the last quarter and is currently achieving the target of <=6.5 percentage points.
	Operating Model Outcome: Th	e Cambridge	shire econom	y prospers to th	ne benefit of all Car	mbridgeshire re	sidents		
Yeariy	Additional jobs created	High	\	To 30-Sep- 2015	+6,300 (provisional)	+3,500	G	A	The latest provisional figures from the Business Register and Employment Survey (BRES) show that 6,300 additional jobs were created between September 2014 and September 2015 compared with an increase of 16,200 for the same period in the previous year. This means that the 2015/16 target of +3,500 additional jobs has been achieved. This information has recently been published by the Office for National Statistics (ONS) as part of the BRES Survey. BRES is the official source of employee and employment estimates by detailed geography and industry. The survey collects employment information from businesses across the whole of the UK economy for each site that they operate.
Passenger Trai	nsport								
	Operating Model Outcome: Th	e Cambridge	shire econom	y prospers to th	ne benefit of all Ca	mbridgeshire re	sidents		
Monthly	Guided Busway passengers per month	High	↑	May-2017	331,395		Contextual		The Guided Busway carried 331,395 passengers in May. There have now been over 19.6 million passengers since the Busway opened in August 2011. The 12-month rolling total is 3.84 million.
Yearly	Operating Model Outcome: Th	e Cambridge	shire econom	y prospers to th	ne benefit of all Car	mbridgeshire re	sidents		

		Mark and the	Dir'n of	Lates	t Data	2017/18	0	Versional	
Frequency	Measure	What is good?	travel	Period	Actual	Target	Current status	Year-end prediction	Comments
	Local bus passenger journeys originating in the authority area	High	↓	2015/16	Approx. 18.9 million	19 million	R	R	There were approximately 18.5 million bus passenger journeys originating in Cambridgeshire in 2015/16, representing a decrease of 400,000 compared with 2014/15. The drop in performance is part of a national trend which the Department of Transport (DfT) have reported as a 2.1% decline in England, outside of London, for 2015/16. There is a chance of growth in the future through the City Deal, but equally these could be offset by cuts through budget reduction. These two changes are unlikely to take effect until 2017/18 so it is unlikely that the 2016/17 target of 19 million bus passenger journeys will be achieved.
Planning applic	cations								
	Operating Model Outcome: Th	e Cambridge	shire econom	y prospers to the	e benefit of all Ca	mbridgeshire res	sidents		
Monthly	The percentage of County Matter planning applications determined within 13 weeks or within a longer time period if agreed with the applicant	High	\leftrightarrow	May-2017	100%	100%	G	G	Three County Matter planning applications have been received and determined on time since the beginning of the 2017/18 financial year. There were two other applications excluded from the County Matter figures. These were applications that required minor amendments or Environmental Impact Assessments (a process by which the anticipated effects on the environment of a proposed development is measured).

			Dir'n of	Lates	t Data	2017/18		verent Voor and	
Frequency	Measure	what is good?	travel	Period	Actual	Target	status	Year-end prediction	Comments
Frequency	% of adults who walk or cycle at least once a month – narrowing the gap between Fenland and others	What is good?					Current status	Year-end prediction	Comments Overall growth from the 2004-2005 average baseline is 62.5 percent. which is better than the Council's target of 46%. Latest figures published by the Department for Transport show that in 2014/15, 81.1% of Fenland residents walked or cycled at least once a month. This a reduction compared with 2013/14, which is disappointing, although, because the indicator is based on a sample survey, the figure can vary from one survey period to the next, and the change since 2013/14 is not statistically significant. Excluding Cambridge, the latest figure for the rest of the County is 89.4%. The gap of 8.3 percentage points is only slightly less than the 2012/13 baseline gap of 8.7 percentage points. A large number of schemes have been undertaken across most parishes in Fenland to further promote cycling and walking including new cycle routes, new footways, large maintenance schemes, general improvements and whole town centre redesigns. During 2015/2016 Cambridgeshire was awarded funding from the Government for a project in Wisbech from the Local Sustainable Transport Fund (LSTF). The project included Sustrans undertaking cycling work with schools and the County Council Travel to Work Unit working with employers in Wisbech to encourage more sustainable travel for commuting.

	Staff Sickness - Days per full- time equivalent (f.t.e.) - 12- month rolling total. A breakdown of long-term and short-term sickness will also be provided.	Low	↓	To May-2017	3.0 days per f.t.e.	6 days per f.t.e	G	G	The 12-month rolling average has reduced slightly at 3.0 days per full time equivalent (f.t.e.) which is below (better than) the 6 day target. During May the total number of absence days within Economy, Transport & Environment was 133 days based on 534 staff (f.t.e) working within the Service. The breakdown of absence shows that 68 days were short-term sickness and 65 days long-term sickness.
