Reports of some adult providers not using PPE appropriately. Multi agency partnership meeting convened by the Adult Safeguarding Partnership Board to agree a process for holding the providers to account. Process agreed and implemented with immediate effect

### **RECOVERY ACTIVITY**

All Safeguarding Partnership Board meetings have now recommenced virtually, this includes the monitoring and scrutiny meetings.

Recovery plan for multi- agency safeguarding training in place – in the interim we are still producing the “virtual training”. To date 1,356 people have accessed the virtual training that we have developed since lockdown.

Interim recovery plan for child exploitation being actively worked and all actions are almost completed. There has been evidence of good multi agency working to complete the actions and it is likely that we will be in a position to move to the “main” child exploitation plan within the next month.
