-911	Savings to be found within service			-939	
0	Total	41,723	14,494	0	0

The service level budgetary control report for July 2018 can be found in [appendix 1](#).

Further analysis of the results can be found in [appendix 2](#).

To ensure financial information is presented in a consistent way to all Committees a standardised format has now been applied to the summary tables and service level budgetary control reports included in each F&PR. The same format is also applied to the Integrated Resources and Performance Report (IRPR) presented to General Purposes Committee (GPC). The data shown provides the key information required to assess the financial position of the service and provide comparison to the previous month.

2.2 Significant Issues

Waste Private Finance Initiative (PFI) Contract

Contract changes that deliver full year savings totalling £1.3m have been identified however delays to reaching formal agreement with the contractor that will allow contract changes to deliver a series of positive initiative will result in a shortfall in delivered savings. It is hoped that agreement will be reached to allow savings to commence in October (previously reported as September) resulting in a savings shortfall of approximately £600,000 this financial year.

Until agreement is reached with the contractor on the contract changes the variable nature of the Mechanical and Biological Treatment (MBT) creates uncertainty in the forecast and actual performance could improve, resulting in an underspend, or worsen, resulting in an overspend

Coroners

The Coroners Service is projecting an overspend of £284k for Cambridgeshire, which is caused by a mixture of on-going workload pressure i.e. the number of cases and the complexity of cases increasing, and a need to reduce the backlog of cases built up over previous years.

Although not yet identified it is expected that savings/underspends will be found within Place & Economy to fund the current projected overspend.

2.3 Additional Income and Grant Budgeted this Period (De minimis reporting limit = £30,000)

There were no items above the de minimis reporting limit recorded in July 2018.

A full list of additional grant income can be found in [appendix 3](#).

2.4 Virements and Transfers to / from Reserves (including Operational Savings Reserve) (De minimis reporting limit = £30,000)

There are no items above the de minimis reporting limit recorded in July 2018.

A full list of virements made in the year to date can be found in [appendix 4](#).

3. BALANCE SHEET

3.1 Reserves

A schedule of the Service's reserves can be found in [appendix 5](#).

3.2 Capital Expenditure and Funding

Expenditure

King's Dyke

The scheme design is expected to be complete in the coming months and construction planned to follow. The detailed design did not commence as quickly as anticipated due to access requirements to carry out the additional surveys so some of this cost has moved into 2018/19.

It was also anticipated that significant land costs would be paid in 2017/18. However, this did not happen and these costs have rolled into 2018/19. This meant that only £1.66m of last year's allocation of £6m was spent.

The expenditure for 2018/19 financial year is estimated at £6.7m which is less than the £11m in the works budget as the construction is starting later than originally anticipated and most of this will be spent in the 2019/20 financial year.

The recent detailed development phase of this project has highlighted that overall project costs are now expected to be significantly higher than the £16.9 million estimated prior to the design phase. This is a result of increases in land and statutory undertakers' costs over early estimates, as well as early indications from Kier the contractor that the construction cost is now expected to be much higher than that submitted prior to the detailed design phase.

The contract with Kier has been split into two stages, design followed by construction. A breakpoint between the two stages means that the Council will be considering whether to award the construction phase of the project to Kier, a decision that is currently expected to be presented to E&E Committee for consideration in October.

Kier will be developing the target construction price as the design progresses over the next month, accompanied by an ongoing review by an external consultant.

An initial review of the Benefit Cost Ratio (BCR) in the Business Case shows that the scheme still represents high value for money, but this will be formally reviewed once the construction target price has been finalised.

Any additional costs would not be realised in this financial year and the current draft contractor's programme suggests that the road would open in spring 2020.

Funding

Further grants have been awarded from the Department for Transport since the published business plan, these being Pothole grant funding 18/19 (£1.608m), a second tranche of Pothole grant funding (£0.807m) and further Safer Roads funding (£0.128m).

All other schemes are funded as presented in the 2018/19 Business Plan.

A detailed explanation of the position can be found in [appendix 6](#).

4. PERFORMANCE

4.1 Introduction

This report provides performance information for the suite of key Place & Economy (P&E) indicators for 2018/19. At this stage in the year, we are still reporting pre-2018/19 information for some indicators.

New information for red, amber and green indicators is shown by Committee in Sections 4.2 to 4.4 below, with contextual indicators reported in Section 4.5. Further information is contained in Appendix 7.

4.2 Red Indicators (new information)

This section covers indicators where 2018/19 targets are not expected to be achieved.

a) Highways & Community Infrastructure

No new information this month

4.3 Amber indicators (new information)

This section covers indicators where there is some uncertainty at this stage as to whether or not year-end targets will be achieved.

a) Highways & Community Infrastructure

Road Safety

- Road accident deaths and serious injuries - 12-month rolling total (to March 2018)
The provisional 12 month total to the end of March 2018 is 315 compared with 391 for the same period of the previous year. The March figure is down compared to the last reported figure of 331 for February 2018. This continues the downturn we have seen in the KSI trend since August 2017. If the trend continues the KSI figure is anticipated to be within 10% of the target by year end.

During March 2018 there were no fatal and 15 serious casualties.

4.4 Green Indicators (new information)

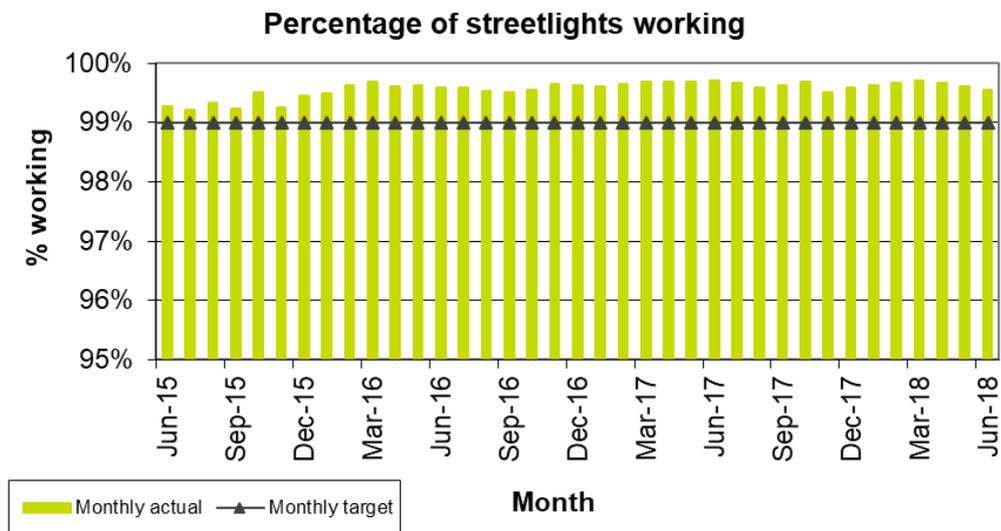

The following indicators are currently on-course to achieve year-end targets.

b) Highways & Community Infrastructure

Street Lighting

- Streetlights working (as measured by new performance contract) (to June 2018)

The 4-month average (the formal contract definition of the performance indicator) is 99.5% this month, and remains above the 99% target.

4.5 Contextual indicators (new information)

a) Highways & Community Infrastructure

Road Safety

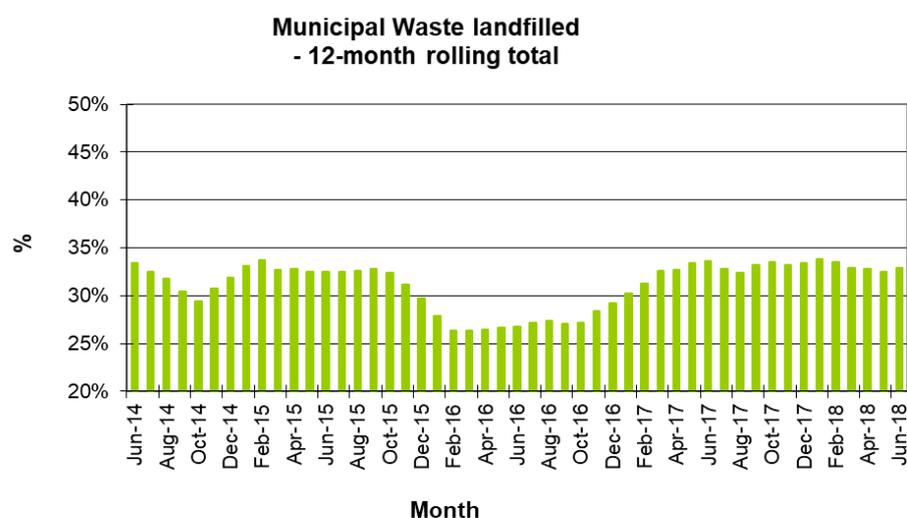

- Road accident slight injuries – 12-month rolling total (to March 2018)
There were 1,525 slight injuries on Cambridgeshire's roads during the 12 months ending March 2018 compared with 1,774 for the same period the previous year.

During March there were 110 slight casualties.

Waste management

- Municipal waste landfilled - 12 month rolling average (to May 2018)
During the 12-months ending May 2018, 32.7% of municipal waste was landfilled.

APPENDIX 2 – Commentary on Forecast Outturn Position

Number of budgets measured at service level that have an adverse/positive variance greater than 2% of annual budget or £100,000 whichever is greater.

Service	Current Budget for 2018/19 £'000	Actual £'000	Outturn Forecast	
			£'000	%
Public Library Services	3,263	1,141	+37	0
<p>A savings target of £50k relating to the Icon (self-service payment) system roll out within Libraries will not be achieved; this was a savings target set retrospectively as part of overall Council savings targets for automation.</p>				
Coroners	903	328	+284	+31
<p>The Coroners Service is projecting an overspend of £284k for Cambridgeshire, which is caused by a mixture of on-going workload pressure i.e. the number of cases and the complexity of cases increasing, and a need to reduce the backlog of cases built up over previous years.</p>				
Community Transport	2,496	363	0	0
<p>Community Transport has pressures of £295k, which is due to the cost of former commercial routes now being subsidised; this can be covered in the short-term from earmarked reserves. It had already been agreed that £84k would be used from the community transport earmarked reserve for the former commercial routes. The Economy & Environment Committee has now agreed to continue to subsidise 19 routes until the end of the 2018/19 financial year, to be fully covered from reserves. In addition the Combined Authority has agreed to fund the continuation of the number 46 service and three further recently de-registered services to the end of the financial year, and has undertaken to provide further funding should additional de-registrations arise this financial year.</p>				
Waste Management	35,820	5,654	600	+2
<p>Contract changes that deliver full year savings totalling £1.3m have been identified however delays to reaching formal agreement with the contractor that will allow contract changes to deliver a series of positive initiative will result in a shortfall in delivered savings. It is anticipated that agreement will be reached to allow savings to commence in October (previously reported as September) resulting in a savings shortfall of approximately £600,000 this financial year.</p> <p>Until agreement is reached with the contractor on the contract changes the variable nature of the MBT creates uncertainty in the forecast and actual performance could improve, resulting in an underspend, or worsen, resulting in an overspend</p>				

APPENDIX 3 – Grant Income Analysis

The table below outlines the additional grant income, which is not built into base budgets.

Grant	Awarding Body	Expected Amount £'000
Grants as per Business Plan	Various	29,108
Non-material grants (+/- £30k)		0
Total Grants 2018/19		29,108

APPENDIX 4 – Virements and Budget Reconciliation

	£'000	Notes
Budget as per Business Plan	41,428	
Funding of former commercial bus routes from earmarked reserve	+84	Agreed in 2017/18
Further funding of former commercial bus routes from earmarked reserve	+211	Agreed in 2018/19
Non-material virements (+/- £30k)		
Current Budget 2018/19	41,723	

APPENDIX 5 – Reserve Schedule

	Other Schemes						
6,000	- Connecting Cambridgeshire	6,000	0	6,000	0	36,290	0
44,027		75,006	12,097	75,292	286	445,241	0
	Capitalisation of Interest	707	0	707	0		
-8,071	Capital Programme variations	-14,931	0	-14,931	0		
35,956	Total including Capital Programme variations	60,782	12,097	61,068	286		

The increase between the original and revised budget is partly due to the carry forward of funding from 2017/18, this is due to the re-phasing of schemes, which were reported as underspending at the end of the 2017/18 financial year. The phasing of a number of schemes have been reviewed since the published business plan. This still needs to be agreed by GPC.

Additional grants have been awarded since the published business plan, these being 2 tranches of Pothole grant funding and further Safer Roads funding.

The Capital Programme Board have recommended that services include a variation budget to account for likely slippage in the capital programme, as it is sometimes difficult to allocate

this to individual schemes in advance. As forecast underspends start to be reported, these are offset with a forecast outturn for the variation budget, leading to a balanced outturn overall up to the point when slippage exceeds this budget. The allocations for these negative budget adjustments have been calculated and shown against the slippage forecast to date.

Cambridgeshire Archives

The revised spend figure in 2018/19 is based on a revised cashflow from the contractor. The scheme is still expected to spend to the total budget allocated.

Libraries

Library schemes funded by developer contributions will not commence until 2019/20, these include Cambourne Library and a new library at Darwin Green.

Huntingdon West of Town Centre Link Road

Land cost claims which were not resolved as anticipated in 2017/18 (only £553,000 of that year's £1,510,000 budget was spent) are now expected to be resolved in 2018/19 or beyond. Land values are still under discussion between agents and no payments can be made until agreement is reached, hence timescales for payment are uncertain.

King's Dyke

The scheme design is expected to be complete in the coming months and construction planned to follow. The detailed design did not commence as quickly as anticipated due to access requirements to carry out the additional surveys so some of this cost has moved into 2018/19.

It was also anticipated that significant land costs would be paid in 2017/18. However, this did not happen and these costs have rolled into 2018/19. This meant that only £1.66m of last year's allocation of £6m was spent.

The expenditure for 2018/19 financial year is estimated at £6.7m which is less than the £11m in the works budget as the construction is starting later than originally anticipated and most of this will be spent in the 2019/20 financial year.

The recent detailed development phase of this project has highlighted that overall project costs are now expected to be significantly higher than the £16.9 million estimated prior to the design phase. This is a result of increases in land and statutory undertakers' costs over early estimates, as well as early indications from Kier the contractor that the construction cost is now expected to be much higher than that submitted prior to the detailed design phase.

The contract with Kier has been split into two stages, design followed by construction. A breakpoint between the two stages means that the Council will be considering whether to award the construction phase of the project to Kier, a decision that is currently expected to be presented to E&E Committee for consideration in October.

Kier will be developing the target construction price as the design progresses over the next month, accompanied by an ongoing review by an external consultant.

An initial review of the Benefit Cost Ratio (BCR) in the Business Case shows that the scheme still represents high value for money, but this will be formally reviewed once the construction target price has been finalised.

Any additional costs would not be realised in this financial year and the current draft contractor's programme suggests that the road would open in spring 2020.

Ely Southern By Pass

The completion date is still likely to be October 2018 despite some significant risks having emerged during construction requiring additional work. These have significantly increased the estimated outturn cost of the scheme from £36m to £49m.

The expenditure for the 2018/19 financial year is forecast at £14.2m (i.e. £34.8m was spent prior to the 2018/19 financial year).

St Neots Northern Foot and Cycle Bridge

Spend for 2018/19 is anticipated to be £300,000 as work continues on determining the preferred design of the bridge, obtaining political approval for this, and then moving into detailed design and statutory processes.

Public consultation on the bridge design completes in early August. There are three designs for the public to comment on. The Economy and Environment Committee will consider the consultation results on November 15th.

General Cycling

£35,000 has been allocated for minor cycling improvements countywide.

Works to improve a short length of Barton to Cambridge cycleway have now been completed on budget.

The final phase of Huntingdon Road will be taking place soon to install a wider, red cycle lane between Storey's Way and Girton Corner.

A feasibility study will be undertaken to see how Boxworth can be linked to the A14/Swavesey for walking and cycling.

£231,000 is currently allocated towards a new foot and cycleway on the A1198 between Cambourne and Papworth, which will allow for the scheme to be designed and developed, but further funding will be needed to complete the construction. It is anticipated that this will come in due course from Highways England.

S106 funded Cycling projects

Detailed design is underway on the UK's first Dutch style roundabout at Fendon Road/Queen Edith's Way. There will be a number of public exhibitions held in the autumn ahead of work starting on site early in 2019, with scheme completion planned for June/July 2019. £550,000 of DfT Cycle Safety funding has been secured to give an overall budget of £800,000.

There will be further consultation in early 2019 on proposals for Queen Edith's Way and Cherry Hinton Road.

Abbey-Chesterton Bridge

Pre commencement planning conditions have now been signed off. Legal sign off on land deals is being finalised and once completed the construction contract will be let.

It is anticipated that works will start in September, with completion in November 2019.

Capital Funding

2018/19				
Original 2018/19 Funding Allocation as per BP	Source of Funding	Revised Funding for 2018/19	Forecast Spend - Outturn (July)	Forecast Funding Variance - Outturn (July)

The increase between the original and revised budget is partly due to the carry forward of funding from 2017/18, this is due to the re-phasing of schemes, which were reported as underspending at the end of the 2017/18 financial year. The phasing of a number of schemes have been reviewed since the published business plan. Additional grants have been awarded since the published business plan, these being 2 tranches of Pothole grant funding and further Safer Roads funding.

Funding	Amount (£m)	Reason for Change
Revised Phasing (Specific Grant)	4.4	Rephasing of grant funding for King's Dyke (£4.4m) from 2017/18, costs to be incurred in 2018/19.
Additional Funding (Section 106 & CIL)	2.0	Additional developer contributions to be used for a number of schemes (£0.7m). Roll forward of CIL funding for Hunts Link Road for outstanding land compensation costs (£1.0m).
Revised Phasing (Other Contributions)	-2.7	Revised phasing of King's Dyke spend.
Additional Funding / Revised Phasing (DfT Grant)	6.5	Roll forward and additional Grant funding – National Productivity Fund (£0.7m), Challenge Fund (£1.1m), Safer Roads Fund (£1.3m), Cycle City Ambition Grant (£1.4m) and Pothole Action Fund (£2.4m).
Additional Funding / Revised Phasing (Prudential borrowing)	16.4	Additional funding required for increased costs for Ely Crossing (£9.2m). Rephasing of spend for Highways maintenance (£2.5m), Challenge Fund (£2.2m) and Sawston Community Hub (£1.4m)

APPENDIX 7 – Performance (RAG Rating – Green (G) Amber (A) Red (R))

Outcome: Exploiting digital solutions and making the best use of data and insight									
Measure	Frequency	Previous period	Target	Actual	Date of latest data	Direction of travel (up is good, down is bad)	Current month RAG Status	Year-end prediction RAG Status	Comments
Archives									
Increase digital access to archive documents by adding new entries to online catalogue	Quarterly	441,325	417,000	446,457	March 18	 High is good	On target	On target	The figure to the end of March 2018 is 446,457 which means the year-end target of 417,000 has been achieved. This equates to an increase over the previous quarter of 5,132, or roughly 78 new catalogue entries per working day.
Outcome: The Cambridgeshire economy prospers to the benefit of all Cambridgeshire residents & People lead a healthy lifestyle and stay healthy for longer									
Measure	Frequency	Previous period	Target	Actual	Date of latest data	Direction of travel (up is good, down is bad)	Current month RAG Status	Year-end prediction RAG Status	Comments
Communities									
Proportion of Fenland And East Cambs residents who participate in sport or active recreation three (or more) times per week. Derived from the Active People Survey	Annual	20.4%	24.2%	22.7%	2015/16	 High is good	Within 10%	Within 10%	The indicator is measured by a survey undertaken by Sport England. The Council's target is for Fenland and East Cambridgeshire to increase to the 2013/14 county average over 5 years. Applying this principle to Sport England's revised baseline data gives a 5-year target to increase the participation rate in Fenland and East Cambridgeshire (combined) to 26.2%. The 2013/14 figure was 21.3% and the 2014/15 figure improved to 21.9%. The 2015/16 figure has continued the improving trend at 22.7% but is slightly off track.

Outcome: The Cambridgeshire economy prospers to the benefit of all Cambridgeshire residents & People lead a healthy lifestyle and stay healthy for longer

Library Services									
Number of visitors to libraries/community hubs - year-to-date	Quarterly	2,303,952	2.4 million	2,121,633	June 2018	 High is good	Within 10%	Within 10%	There have been 494,146 visitors to libraries/community hubs between April and June 2018 and a total of 2,121,633 during the year to date (July 2017 to end June 2018). We are seeing a slight dip in visitor figures in the last quarter and that may be in part due to the introduction of computer charges from the 1st May. We are closely monitoring the situation and actively promoting the first free half an hour for all library users as well as the free computer use for all children and young people up to and including 18 year olds and people accessing gov.uk and ccc.gov.uk web sites as well as those accessing universal credit.

Outcome: The Cambridgeshire economy prospers to the benefit of all Cambridgeshire residents & People live in a safe environment

Road and Footway Maintenance									
Principal roads where maintenance should be considered	Annual	2%	3%	2.8%	2017/18	 Low is good	On target	On target	Provisional results indicate that maintenance should be considered on 2.8%, rounded to a reportable 3%, of the County's principal road network. This indicates a slight deterioration from the previous year where the figure was 2.3%, rounded to a reportable 2%

Outcome: The Cambridgeshire economy prospers to the benefit of all Cambridgeshire residents & People live in a safe environment

Measure	Frequency	Previous period	Target	Actual	Date of latest data	Direction of travel (up is good, down is bad)	Current month RAG Status	Year-end prediction RAG Status	Comments
Classified road condition - narrowing the gap between Fenland and other areas of the County	Annual	2.68%	2% gap	3.5% gap	2017/18	 Low is good	Off target	Off target	Provisional figures show the gap increasing by 0.5%. However, the gap is not significant, and may be affected by the experimental error within the machine condition survey methodology. It should also be mentioned that significant investment has recently been carried out in the Fenland area associated with the DfT Challenge Fund bid, and these works will not have been included in this year's survey. Additionally, this is only an annual sample survey and does only include 25% of the classified road network, and so will not always capture recent improvement works undertaken. The narrowing the gap indicator will continue to be monitored.
Non-principal roads where maintenance should be considered	Annual	6%	8%	6%	2017/18	 Low is good	Green	Green	Provisional results indicate that maintenance should be considered on 6% of the County's non-principal road network. This is considered a steady state condition and is the same as the figure for 2016/17 and for 2015/16 and better than the Council's target of 8%.

Outcome: The Cambridgeshire economy prospers to the benefit of all Cambridgeshire residents & People live in a safe environment									
Measure	Frequency	Previous period	Target	Actual	Date of latest data	Direction of travel (up is good, down is bad)	Current month RAG Status	Year-end prediction RAG Status	Comments
Unclassified roads where structural maintenance should be considered	Annual	33%	N/A	22%	2017/18	 Low is good	Contextual	Contextual	<p>Provisional figures suggest the condition has seen significant improvement from 33% to 22%</p> <p>However, unlike last year, when the worst roads were surveyed to assist in prioritising works, a random sample has been undertaken, and this will reflect more accurately the condition of the unclassified network.</p>
Road Safety									
Killed or seriously injured (KSI) casualties - 12-month rolling total	Monthly	331	<275	315	31 March 2018	 Low is good	Off target	Within 10%	<p>The provisional 12 month total to the end of March 2018 is 315 compared with 391 for the same period of the previous year. The March figure is down compared to the last reported figure of 331 for February 2018. This continues the downturn we have seen in the KSI trend since August 2017. If the trend continues the KSI figure is anticipated to be within 10% of the target by year end.</p> <p>During March 2018 there were no fatal and 15 serious casualties.</p>
Slight casualties - 12-month rolling total	Monthly	1555	N/A	1525	31 March 2018	 Low is good	Contextual	Contextual	<p>There were 1,525 slight injuries on Cambridgeshire's roads during the 12 months ending March 2018 compared with 1,774 for the same period the previous year.</p> <p>During March there were 110 slight casualties.</p>

Outcome: The Cambridgeshire economy prospers to the benefit of all Cambridgeshire residents & People live in a safe environment

Rogue Traders									
Money saved for Cambridgeshire consumers as a result of our intervention in rogue trading incidents. (Annual average)	Quarterly	109,752	N/A	£104,180	31 March 2018	 High is good	Contextual	Contextual	£5,150 was saved for 3 victims as a result of our intervention in rogue trading incidents during the last quarter of 2017/18 (January to March 2018). The annual average based on available data since April 2014 is £104,180. Data for 2017/18 includes Peterborough savings. It is important to note that the amounts recovered do not reflect the success of the intervention. In many cases the loss of a relatively small amount can have significant implications for victims; the impact can only be viewed on a case-by-case basis. Not all of the money saved has been reimbursed at the same time as the repayments of court ordered reimbursements may be repaid over months or years.
Street Lighting									
Percentage of street lights working	Monthly	99.6%	99%	99.5%	30 June 2018	 High is good	On target	On target	The 4-month average (the formal contract definition of the performance indicator) is 99.5% this month, and remains above the 99% target.
Energy use by street lights – 12-month rolling total	Monthly	11.32 million Kwh	10.59 million Kwh	11.32 million Kwh	31 May 2018	 Low is good	Within 10%	On target	Actual energy use to April is 11.32 Kwh, which is very slightly below the last reported figure of 11.34 and currently above our target of 10.59. The energy targets have now been updated to reflect other measures agreed elsewhere (such as the presence or absence of part night lighting, including those being funded by Cambridge City and Parish Councils).

These indicators do not link clearly to a single Operating Model outcome but make a key contribution across other outcomes and can have a large financial impact on the Council

Waste Management									
Municipal waste landfilled – 12-month rolling average	Monthly	32.7%	N/A	32.9%	30 June 2018	 Low is good	Contextual	Contextual	During the 12-months ending June 2018, 32.9% of municipal waste was landfilled.
Library Services									
Number of item loans (including eBook loans) – year-to-date	Quarterly	2,600,639	N/A	2,443,959	31 March 18	 High is good	Contextual	Contextual	There have been 585,919 item loans between January and March 2018 and a total of 2,443,959 during the year to date (April 2017 to March 2018). The drop in issues may be related to the small drop in visitors. We are working hard over the next 6 months to improve the book stock in libraries and that work should start to reverse this trend. That is supported by the additional money for the book fund this year, as agreed as part of the Library Service Transformation Programme, because the book fund has seen significant decline in past years.
