1.	Mr Norman Ingle Member of the Public	Councillor Steve Count Leader of the Council	Is he content with Stage 3 of the Complaints procedure whereby a Complainant has the right to take a matter to the Chief Executive. In my case I have waited almost 6 months for a substantive response and despite 3 e mails to the Chairman (who is supposed to be the Conscience) of the Council, she has not even bothered to respond to me directly. I do acknowledge that this is a difficult matter and that the Council may not know what to do, but nothing is not the answer.  How can any resident have any confidence in such a system?

2.	Ms Isabel Lambourne Member of the Public	Councillor Josh Schumann Chairman of Commercial and Investment Committee	I am a member of the Friends of Castle Mound. Can the County Council give a definitive assurance, stating the legal basis for that assurance, to the friends of Castle Mound and to the general public that the general public will have free open access in perpetuity to the Mound and the grassed forecourt on the Shire Hall site? Would the County Council be prepared to register the Mound and the grassed forecourt on the Shire Hall site as a town green?
