Dear Resident,

### **Cycle Parking Trial on Thoday Street – Have your say**

Cambridgeshire County Council is trialling cycle parking in front of numbers 100 and 154 Thoday Street.

There is a great demand for cycle parking in the area from residents - some of whom have requested the trial as they do not own a car and have difficulties parking their bicycles. This trial will give everyone a chance to see the effect of the removal of two car parking spaces and provision of publicly available on-street cycle parking.

Any final scheme would be designed with a kerb build similar to that installed in St Philip's Road as below but with 3 or 4 racks, taking up the space of one car.

Please let us know if you support the permanent installation of cycle parking in one or both of these locations by e-mailing or by telephone using the details above, stating your name and address.

If you have any questions about this trial please contact us.

Yours faithfully,

Clare Rankin  
Project Officer
