1. Guidance

Overview

Note on entering information into this template

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below:

Pre-populated cells

Note on viewing the sheets optimally

For a more optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the guidance sheet for readability if required.

The details of each sheet within the template are outlined below.

Checklist (click to go to Checklist, included in the Cover sheet)

- 1. This section helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the Better Care Support Team.
- 2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are completed.
- 3. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Clicking on the corresponding 'Cell Reference' column will link to the incomplete cell for completion. Once completed the checker column will change to 'Green' and contain the word 'Yes'
- 4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.
- 5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to 'Complete Template'.
- 6. Please ensure that all boxes on the checklist are green before submission.

2. Cover (click to go to sheet)

- 1. The cover sheet provides essential information on the area for which the template is being completed, contacts and sign off.
- 2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template be sent to england.bettercaresupport@nhs.net
- 3. Please note that in line with fair processing of personal data we collect email addresses to communicate with key individuals from the local areas for various purposes relating to the delivery of the BCF plans including plan development, assurance, approval and provision of support.

 We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed.

Please let us know if any of the submitted contact information changes during the BCF planning cycle so we are able to communicate with the right people in a timely manner.

4. Strategic Narrative (click to go to sheet)

This section of the template should set out the agreed approach locally to integration of health & social care. The narratives should focus on updating existing plans, and changes since integration plans were set out until 2020 rather than reiterating them and can be short. Word limits have been applied to each section and these are indicated on the worksheet.

- 1. Approach to integrating care around the person. This should set out your approach to integrating health and social care around the people, particularly those with long term health and care needs. This should highlight developments since 2017 and cover areas such as prevention.
- 2 i. Approach to integrating services at HWB level (including any arrangements at neighbourhood level where relevant). This should set out the agreed approach and services that will be commissioned through the BCF. Where schemes are new or approaches locally have changed, you should set out a short rationale.
- 2 ii. DFG and wider services. This should describe your approach to integration and joint commissioning/delivery with wider services. In all cases this should include housing, and a short narrative on use of the DFG to support people with care needs to remain independent through adaptations or other capital expenditure on their homes. This should include any discretionary use of the DFG.
- 3. How your BCF plan and other local plans align with the wider system and support integrated approaches. Examples may include the read across to the STP (Sustainability Transformation Partnerships) or ICS (Integrated Care Systems) plan(s) for your area and any other relevant strategies.

You can attach (in the e-mail) visuals and illustrations to aid understanding if this will assist assurers in understanding your local approach.

5. Income (click to go to sheet

- 1. This sheet should be used to specify all funding contributions to the Health and Wellbeing Board's Better Care Fund (BCF) plan and pooled budget for 2019/20. On selected the HWB from the Cover page, this sheet will be pre-populated with the minimum CCG contributions to the BCF, DFG (Disabled Facilities Grant), iBCF (improved Better Care Fund) and Winter Pressures allocations to be pooled within the BCF. These cannot be edited.
- 2. Please select whether any additional contributions to the BCF pool are being made from Local Authorities or the CCGs and as applicable enter the amounts in the fields highlighted in 'yellow'. These will appear as funding sources when planning expenditure. The fields for Additional contributions can be utilised to include any relevant carry-overs from the previous year.
- 3. Please use the comment boxes alongside to add any specific detail around this additional contribution including any relevant carry-overs assigned from previous years. All allocations are rounded to the nearest pound.
- 4. For any questions regarding the BCF funding allocations, please contact England.bettercaresupport@nhs.net

6. Expenditure (click to go to sheet)

This sheet should be used to set out the schemes that constitute the BCF plan for the HWB including the planned expenditure and the attributes to describe the scheme. This information is then aggregated and utilised to analyse the BCF plans nationally and sets the basis for future reporting and to particularly demonstrate that National Condition 2 and 3 are met.

The table is set out to capture a range of information about how schemes are being funded and the types of services they are providing. There may be scenarios when several lines need to be completed in order to fully describe a single scheme or where a scheme is funded by multiple funding streams (eg: iBCF and CCG minimum). In this case please use a consistent scheme ID for each line to ensure integrity of aggregating and analysing schemes.

On this sheet please enter the following information:

1. Scheme ID:

- This field only permits numbers. Please enter a number to represent the Scheme ID for the scheme being entered. Please enter the same Scheme ID in this column for any schemes that are described across multiple rows.
- 2. Scheme Name:
- This is a free field to aid identification during the planning process. Please use the scheme name consistently if the scheme is described across multiple lines in line with the scheme ID described above
- 3. Brief Description of Scheme
- This is free text field to include a brief headline description of the scheme being planned.
- 4. Scheme Type and Sub Type:
- Please select the Scheme Type from the drop-down list that best represents the type of scheme being planned. A description of each scheme is available at the end of the table (follow the link to the description section at the top of the main expenditure table).
- Where the Scheme Types has further options to choose from, the Sub Type column alongside will be editable and turn "yellow". Please select the Sub Type from the drop down list that best describes the scheme being planned.
- Please note that the drop down list has a scroll bar to scroll through the list and all the options may not appear in one view.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- While selecting schemes and sub-types, the sub-type field will be flagged in 'red' font if it is from a previously selected scheme type. In this case please clear the sub-type field and reselect from the dropdown if the subtype field is editable.
- 5. Planned Outputs
- The BCF Planning requirements document requires areas to set out planned outputs for certain scheme types (those which lend themselves to delivery of discrete units of delivery) to help to better understand and account for the activity funded through the BCF.
- The Planned Outputs fields will only be editable if one of the relevant scheme types is selected. Please select a relevant unit from the drop down and an estimate of the outputs expected over the year. This is a numerical field.

6. Metric Impact

- This field is collecting information on the metrics that a chem will impact on (rather than the actual planned impact on the metric)
- For the schemes being planned please select from the drop-down options of 'High-Medium-Low-n/a' to provide an indicative level of impact on the four BCF metrics. Where the scheme impacts multiple metrics, this can be expressed by selecting the appropriate level from the drop down for each of the metrics. For example, a discharge to assess scheme might have a medium impact on Delayed Transfers of Care and permanent admissions to residential care. Where the scheme is not expected to impact a metric, the 'n/a' option could be selected from the drop-down menu.
- 7. Area of Spend:
- Please select the area of spend from the drop-down list by considering the area of the health and social system which is most supported by investing in the scheme
- Please note that where 'Social Care' is selected and the source of funding is "CCG minimum" then the planned spend would count towards National Condition 2.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- We encourage areas to try to use the standard scheme types where possible.
- 8. Commissioner:
- Identify the commissioning entity for the scheme based on who commissions the scheme from the provider. If there is a single commissioner, please select the option from the drop-down list.
- Please note this field is utilised in the calculations for meeting National Condition 3.
- If the scheme is commissioned jointly, please select 'Joint'. Please estimate the proportion of the scheme being commissioned by the local authority and CCG/NHS and enter the respective percentages on the two columns alongside.

Provider

- Please select the 'Provider' commissioned to provide the scheme from the drop-down list.
- If the scheme is being provided by multiple providers, please split the scheme across multiple lines.

10. Source of Funding:

- Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop-down list
- If the scheme is funding across multiple sources of funding, please split the scheme across multiple lines, reflecting the financial contribution from each.
- 11. Expenditure (£) 2019/20
- Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across multiple lines)
- 12. New/Existing Scheme
- Please indicate whether the planned scheme is a new scheme for this year or an existing scheme being carried forward.

This is the only detailed information on BCF schemes being collected centrally for 2019/20 and will inform the understanding of planned spend for the iBCF and Winter Funding grants.

7. HICM (click to go to sheet)

National condition four of the BCF requires that areas continue to make progress in implementing the High Impact Change model for managing transfers of care and continue to work towards the centrally set expectations for reducing DToC. In the planning template, you should provide:

- An assessment of your current level of implementation against each of the 8 elements of the model from a drop-down list
- Your planned level of implementation by the end March 2020 again from a drop-down list

A narrative that sets out the approach to implementing the model further. The Narrative section in the HICM tab sets out further details.

8. Metrics (click to go to sheet)

This sheet should be used to set out the Health and Wellbeing Board's performance plans for each of the Better Care Fund metrics in 2019/20. The BCF requires plans to be agreed for the four metrics. This should build on planned and actual performance on these metrics in 2018/19.

- 1. Non-Elective Admissions (NEA) metric planning:
- BCF plans as in previous years mirror the latest CCG Operating Plans for the NEA metric. Therefore, this metric is not collected via this template.
- 2. Residential Admissions (RES) planning:
- This section requires inputting the information for the numerator of the measure.
- Please enter the planned number of council-supported older people (aged 65 and over) whose long-term support needs will be met by a change of setting to residential and nursing care during the year (excluding transfers between residential and nursing care) for the Residential Admissions numerator measure.
- The prepopulated denominator of the measure is the size of the older people population in the area (aged 65 and over) taken from ONS subnational population projections.
- The annual rate is then calculated and populated based on the entered information.
- Please include a brief narrative associated with this metric plan
- 3. Reablement (REA) planning:
- This section requires inputting the information for the numerator and denominator of the measure.
- Please enter the planned denominator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (or from hospital to a residential or nursing care home or extra care housing for rehabilitation, with a clear intention that they will move on/back to their own home).
- Please then enter the planned numerator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (from within the denominator) that will still be at home 91 days after discharge.
- The annual proportion (%) Reablement measure will then be calculated and populated based on this information.
- Please include a brief narrative associated with this metric plan
- 4. Delayed Transfers of Care (DToC) planning:
- The expectations for this metric from 2018/19 are retained for 2019/20 and these are prepopulated.
- Please include a brief narrative associated with this metric plan.
- This narrative should include details of the plan, agreed between the local authority and the CCG for using the Winter Pressures grant to manage pressures on the system over Winter.

9. Planning Requirements (click to go to sheet)

This sheet requires the Health & Wellbeing Board to confirm whether the National Conditions and other Planning Requirements detailed in the BCF Policy Framework and the BCF Requirements document are met. Please refer to the BCF Policy Framework and BCF Planning Requirements documents for 2019/20 for further details.

The Key Lines of Enquiry (KLOE) underpinning the Planning Requirements are also provided for reference as they will be utilised to assure plans by the regional assurance panel.

- 1. For each Planning Requirement please select 'Yes' or 'No' to confirm whether the requirement is met for the BCF Plan.
- 2. Where the confirmation selected is 'No', please use the comments boxes to include the actions in place towards meeting the requirement and the target timeframes.

10. CCG-HWB Mapping (click to go to sheet)

The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level non-elective activity figures.

4. Strategic Narrative

Selected Health and Wellbeing Board:

Cambridgeshire	

Please outline your approach towards integration of health & social care:

When providing your responses to the below sections, please highlight any learning from the previous planning round (2017-2019) and cover any priorities for reducing health inequalities under the Equality Act 2010.

Please note that there are 4 responses required below, for questions: A), B(i), B(ii) and C)

Link to B) (i)

Link to B) (ii) Link to C)

A) Person-centred outcomes

Your approach to integrating care around the person, this may include (but is not limited to):

- Prevention and self-care

- Promoting choice and independence

Remaining Word Limit: 105

Our approach to integration in 2019-20 continues to build on the vision contained in the previous year's BCF plans:

"Over the next five years in Cambridgeshire and Peterborough we want to move to a system in which health and social care help people to help themselves, and the majority of people's needs are met through family and community support where appropriate. This support will focus on returning people to independence as far as possible with more intensive and longer term support available to those that need it. This shift is ambitious. It means moving money away from acute health services, typically provided in hospital, and from ongoing social care support. This cannot be achieved immediately – such services are usually funded on a demand-led basis and provided as they are needed in order to avoid people being left untreated or unsupported when they have had a crisis. Therefore reducing spending is only possible if fewer people have crises. However, this is required if services are to be sustainable in the medium and long term."

This vision translates into our key transformation plans and strategies throughout 2019-20:

- Prevention & Early Intervention: This area focuses on establishing and implementing approaches that prevent or delay the need for more intensive health (specifically admissions to hospital) and social care services, or, proactively promote the independence of people with long-term conditions and older people and their engagement with the community. The 2019-20 BCF Plans will build on the huge amount of work already undertaken in this area and will seek to reduce duplication across the system by working together with the CCG. Our system-wide Ageing Well Strategy Board, led by Public Health, is focusing on approaches to address falls prevention, dementia, social isolation and multi-morbidity and frailty. Other areas include information, advice and guidance, technology enabled care, dementia support, day opportunities and employment opportunities. Through our Better Care Fund programme of work we are developing ways of strengthening integrated approaches to commissioning from the voluntary sector. We have a number of jointly commissioning, community equipment, learning disabilities and mental health support. In addition we have developed system wide agreed principles to joint commissioning, which will continue to inform our approach for greater integration of voluntary sector commissioning and developing community resilience.
- Community services (MDT working): Case management within the Neighbourhood Teams is key to reducing increasing demand on the acute and statutory care services. Neighbourhood teams are well established across Cambridgeshire and Peterborough and MDT case management is an ongoing function which brings together expertise from social care and health to support and manage complex patients in a holistic manner.

We have made good progress is development of an integrated discharge pathway, with the establishment of Integrated Discharge Services (IDS) across all three acute hospitals. This was set up to integrate the different services that support a patient's discharge from hospital to ensure that the patient journey is as seamless and timely as possible, and has the following objectives:

- -To provide early input into discharge planning on the wards, from the point of admission, through attendance at board rounds and a single point of access for community services
- -To bring together expertise from all agencies and challenge assumptions through specialist knowledge and high level decision making
- -To collate information on patient health and social history across the system
- -To act as a single point of access to community health and social care services on acute hospital wards
- -To provide continuity of contact for patient and family and engage them to inform patient context, constraints and support preferences.
- -To provide clinical challenge to discharge plans for complex patients
- -To manage performance at the interface between acute and community against key indicators
- -To reduce duplication in triage and assessment in the discharge process
- The next step on our Community Services journey is to develop Place-Based Delivery, in which a wide range of organisations work together to govern the common resources available for improving health and care in their area.
- High Impact Changes to reduce Delayed Transfers Of Care (DTOCs) and support patient flow through pathways. As a system we have established processes in place which support the eight high impact changes, as outlined below:
- Early Discharge Planning: Patients are allocated an estimated / predicted date of discharge at the point of admission.
- Patient Flow Systems: To collate information on patient health and social history across the system. These include system-wide DTOC reporting and DTOC KPIs, implementation of a bed state tracking system and plans to implement SHREWD (Single Health Resilience Early Warning Database)

B) HWB level

Health.

(i) Your approach to integrated services at HWB level (and neighbourhood where applicable), t	this may include (but is not limited
to):	

- Joint commissioning arrangements
- Alignment with primary care services (including PCNs (Primary Care Networks))
- Alignment of services and the approach to partnership with the VCS (Voluntary and Community Sector)

Remaining Word Limit:

^^ Link back to top

There is a strong commitment across the system to developing place based services which provide proactive, integrated and person centred care to people, keeping them well and independent in their own communities for as long as possible. This work is being led at a system wide level by the STP, through the north and south alliance boards through the development of integrated neighbourhoods. Primary Care Networks (PCNs) are the cornerstone of the integrated neighbourhood model, which aims to keep local people well and out of hospital, bringing all parts of the workforce together and putting people at the centre of the care they receive. The cornerstone of each Integrated Neighbourhood is a Primary Care Network (PCN). ambridgeshire and Peterborough's population of almost one million patients will be covered by 21 PCNs.

- This is the foundation on which we plan to move towards an accountable care system in the future, possible through a number of large scale programmes which are currently being invested in across health and social care:

 Think Communities Here the Local Authority aims to bring multiple stakeholders together to work in a structured manner across a locality, to solve complex issues and reduce demand for the future. Stakeholders include including Top tier Local Authorities, District Councils, Police, Voluntary Sector and
- Adults Positive Challenge (APC) Local Authority Programme supporting transition to a demand management system of service delivery for Adult Social Care; a model that is based on promoting independence and putting choice directly into the hands of individuals and communities.

 Integrated Neighbourhoods South & North Alliance Programme which will develop local models of integrated care with primary care networks as their cornerstone, bringing together community, social, secondary care, mental health and voluntary services. Integrated Neighbourhoods provide proactive and integrated care to communities of 30,000-50,000. They build on the base of primary care networks, bring all parts of the workforce together and put the patient at the centre of the care they receive.
- Neighbourhood Teams (NTs) Cambridgeshire and Peterborough NHS Foundation Trust (CPFT) Programme involving 14 NTs. These are the physical and mental health care hub of the local community for over 65-year olds and adults requiring community services. They work closely with GPs, primary care, social care and the third and independent sector to provide joined-up responsive, expert care and treatment.

These programmes are driving a move towards Place-Based Commissioning and partners have developed two area-based STP delivery groups (North and South Alliance Delivery Groups) which have representation from health and social care commissioners, providers, patients and the voluntary and community sector. Six placed-based Delivery Boards will lead on local development of neighbourhood-based care and will link with district councils, local communities, multi-agency neighbourhood teams, primary care networks and locality wellbeing initiatives, such as support for carers and promoting physical activity.

The aim is to develop an integrated neighbourhood model across populations of 30,000 to 60,000 people – currently being piloted in two areas of Cambridgeshire. All community-based services will deliver preventative and holistic care that enables people to live healthier, longer and more independently.

Underpinning integration is a continued move to integrated models of commissioning across Cambridgeshire and Peterborough which seeks to:

- Increase choice and control
- Build strong partnership working
- Strengthen community capacity
- Deliver outcome based commissioning

Integrated commissioning approaches support us to increase consistency in service provision and enable better engagement and market management. The following are a number of existing integrated commissioning arrangements that we have in place:

- Better Care Fund pooled budget: commissions a range of integrated initiatives, including community multidisciplinary neighbourhood teams, prevention and early intervention initiatives such as falls prevention, interventions to support the management of DTOCs.
- Support for people with mental health issues
- Learning Disability Partnership
- Community Occupational Therapy Services
- Community Equipment Services and Technology Enabled Care Services

		_
(ii) Your approach to integration with wide	services (e.g. Housing), this should include:	
- Your approach to using the DFG to support	the housing needs of people with disabilities or care needs. This should include any	
arrangements for strategic planning for the	use of adaptations and technologies to support independent living in line with the	^^ Link back to top
Pemaining Word Limit:	4	-

Housing and adaptations are crucial elements in maintaining independence within the home. Both Cambridgeshire and Peterborough systems are committed to joined-up working and more proactive use of the Disabled Facilities Grant (DFG), Technology Enabled Care (TEC), Community Equipment (ICES) etc. to support greater independence.

Peterborough City Council's Housing Renewals Policy 2017 - 2019 was adopted in January 2017 and introduced discretionary funding already covered within legislation. Two types of discretionary funding were introduced. The first was a Top Up grant (max £20,000.00) to the Mandatory DFG (max £30,000) which allowed ground floor extensions to provide bedroom and bathing facilities (particularly for disabled children) to progress which had stalled due to rising building costs and insufficient grant funding.

The second discretionary grant introduced was to carry out physical works in clients' homes to expedite hospital discharge and preventative works to avoid or reduce hospital admissions. This grant has a maximum of £6,000.00. The type of work that will be considered for hospital discharge/delayed transfer of care and for hospital admission avoidance includes:

- Clearance and a one-off deep clean of hoarded and filthy properties
- Ceiling Track Hoists to facilitate care in order to return home guickly
- Level access showers to facilitate care
- Heating and energy efficiency measures
- Sensory Equipment
- Ramps and door widening to facilitate access
- Telephone land line (installation only) to facilitate Assistive Technology/TEC
- Fixed Safety equipment alarms, safety locks, specialised lighting, fire/radiator guards
- Physical changes to the property in order to eliminate/reduce the risk of falls which are outside the remit of the Council's Handyperson Service
- Changing flooring to facilitate safe moving & handling
- Any other request for physical property changes/adaptations deemed reasonable and practicable, necessary and appropriate to facilitate hospital discharge to a safe environment and to enable the elimination or reduction of care packages

In Cambridgeshire, work is under way to develop a similar housing adaptations policy in conjunction with districts and this will be adopted by districts so there is a consistent approach to application of DFG across the county. The kinds of discretionary funding already happening in Peterborough will become part of the Cambridgeshire approach moving forward.

DFG funding in Cambs is passed via the BCF to the District Councils, who have statutory responsibility for DFG. A new, joint county-wide adaptation and repairs policy has now been agreed and adopted by the five Cambridgeshire district councils, starting to be implemented from April 2019. This allows for Disabled Facilities Grant (DFG) monies received through the Better Care Fund to be spent more creatively on wider partnership projects or other services, outside of mandatory DFGs, to help meet BCF objectives. Cambridgeshire Home Improvement Agency has significantly reduced the time taken to install new adaptations and to further develop this. A new pilot scheme to employ and locate an Occupational Therapist within the Cambridgeshire Home Improvement Agency (Cambs HIA) in being undertaken.

Community equipment (ICES) and TEC work hand in hand with DFG to enable more innovative models of support.

The Integrated Community Equipment Service provides short- and long-term loans of equipment, ranging from simple walking aids, through to larger and more complex items, such as pressure relieving mattresses and hoists. Equipment may also be designed to help carers with the safer delivery of care. The service can also include installation, servicing and maintenance, depending on the type of equipment specified. This equipment plays an important role in diverting demand away from long-term care and support therefore more spend in this area is required in 2019-20. BCF partners will therefore collaborate to find a more sustainable solution for ICES funding and will also ensure that the cost of community equipment is factored into future business cases that focus on transferring care from the acute to community settings. The service continues to deliver health and social care equipment service to all age groups across Cambs & Peterborough and is a positive example of joint working between CCG and both local authorities. The provision of essential equipment can avoid the need for expensive packages of care and support – e.g. equipment to support single-handed care to avoid double-up packages of care.

C) System level alignment, for example this	may include (but is not limited to):	
- How the BCF plan and other plans align to	he wider integration landscape, such as STP/ICS plans	
- A brief description of joint governance arra	ngements for the BCF plan	^^ Link back to to
Remaining Word Limit:	0	

Our approach to integration under the BCF underpins the local vision and is aligned with local STP plans and health and wellbeing priorities. As a system we have a strong vision and leadership commitment to integration.

The 5-year Sustainability & Transformation Project (STP), Fit For the Future, sets out a single overall vision for health and care for Cambridgeshire and Peterborough, including:

•Supporting people to keep themselves healthy

•Primary care (GP services)

Urgent and emergency care

•Planned care for adults and children, including maternity services

•Care and support for people with long term conditions or specialised needs, including mental ill health.

The STP seeks to improve the health and care of our local population and bring the system back into financial balance. To enable us to deliver the best care we can, we have agreed a unifying ambition for health and care in Cambridgeshire and Peterborough. This is to develop the beneficial behaviours of an 'Accountable Care System' (ACS) by acting as one system, jointly accountable for improving our population's health and wellbeing, outcomes, and experience, within a defined financial envelope. Through engagement with staff, patients, carers, and partners, we identified four priorities for change and underpinned by a 10-point plan to deliver these priorities.

Priorities for Change:

- 1. At home is best;
- a. People powered health and wellbeing
- b. Neighbourhood care hubs
- 2. Safe and effective hospital care, when needed;
- a. Responsive urgent and expert emergency care
- b. Systematic and standardised care
- c. Continued world-famous research and services
- 3. We're only sustainable together;
- a. Partnership working supported delivery
- 4. Supported delivery
- a. A culture of learning as a system
- b. Workforce: growing our own
- c. Using our land and buildings better
- d. Using technology to modernise health

The NHS Long Term Plan is a key enabler for further progressing the integration journey for the local system, and includes:

5. Income

7. High Impact Change Model

Selected Health and Wellbeing Board:

Cam		

Explain your priorities for embedding elements of the High Impact Change Model for Managing Transfers of Care locally, including:

- Current performance issues to be addressed
- The changes that you are looking to embed further including any changes in the context of commitments to reablement and Enhanced Health in Care Homes in the NHS Long-Term Plan
- Anticipated improvements from this work

High Impact Changes to reduce Delayed Transfers Of Care (DTOCs) and support patient flow through pathways. As a system we have established processes in place which support the eight high impact changes, as outlined below:

- Early Discharge Planning: Patients are allocated an estimated / predicted date of discharge at the point of admission.
- Patient Flow Systems: To collate information on patient health and social history across the system. These include system-wide DTOC reporting and DTOC KPIs, implementation of a bed state tracking system and plans to implement SHREWD (Single Health Resilience Early Warning Database)

		Please enter current position of maturity	Please enter the maturity level planned to be reached by March 2020	If the planned maturity level for 2019/20 is below established, please state reasons behind that?

8. Metrics

Selected Health and Wellbeing Board: Cambridgeshire

8.1 Non-Elective Admissions

	19/20 Plan	Overview Narrative
		For Q1 of 2019/20, the NEL plan was 7,950 spells at CUHFT and 10,794 at NWAFT
Total number of	Collection of the NEA metric	The actual activity for Q1 was 8,312 spells at CUHFT and 11,234 at NWAFT
specific acute	plans via this template is not	The plan for A/E attends for Q1 was 30,134 at CUHFT and 30,203 at NWAFT
non-elective	required as the BCF NEA metric	The actual activity for Q1 was 33,059 attends at CUHFT and 31,680 at NWAFT
spells per	plans are based on the NEA CCG	
100,000	Operating plans submitted via	It should be noted that CUHFT are one of 14 pilot sites for the UEC Access Standards
population	SDCS.	Pilot and are therefore not reporting performance against the 4 hour target to the
		CCG.

Please set out the overall plan in the HWB area for reducing Non-Elective Admissions, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Plans are yet to be finalised and signed-off so are subject to change; for the latest version of the NEA CCG operating plans at your HWB footprint please contact your local Better Care Manager (BCM) in the first instance or write in to the support inbox:

ENGLAND.bettercaresupport@nhs.net

8.2 Delayed Transfers of Care

	19/20 Plan	Overview Narrative
Delayed Transfers of Care per day (daily delays) from hospital (aged 18+)	60.4	DTOC work is led by a multi-disciplinary, system-wide discharge programme board. The High Impact Changes are already well-established in the area and plans include progression to a greater level of maturity in 2019-20. Here is breakdown of each. Early Discharge Planning Patients are allocated an estimated / predicted date of discharge at the point of admission, and we are issuing DNs 72 hours before EDD/PDD (rather than 48) to allow community services extra time to find suitable provision and ensure discharges are not delayed.

Please set out the overall plan in the HWB area for reducing Delayed Transfers of Care to meet expectations set for your area. This should include any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric. Include in this, your agreed plan for using the Winter Pressures grant funding to support the local health and care system to manage demand pressures on the NHS, with particular reference to seasonal winter pressures.

Please note that the plan figure for Greater Manchester has been combined, for HWBs in Greater Manchester please comment on individuals HWBs rather than Greater Manchester as a whole. Please note that due to the merger of Bournemouth, Christchurch and Poole to a new Local Authority will mean that planning information from 2018/19 will not reflect the present geographies.

8.3 Residential Admissions

		18/19 Plan	19/20 Plan	Comments
Long-term support needs of older people (age 65 and over) met by	Annual Rate	473		The Council is undertaking a comprehensive strengths and assets based approach to maximise the ability to
admission to residential and nursing care homes, per 100,000	Numerator	581		support people to remain within their own homes, reducing unnecessary escalation of need and resulting
population	Denominator	122,764		early admissions into residential settings. This includes public messaging around alternative options for self

Please set out the overall plan in the HWB area for reducing rates of admission to residential and nursing homes for people over the age of 65, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population (aged 65+) population projections are based on a calendar year using the 2016 based Sub-National Population Projections for Local Authorities in England;

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

8.4 Reablement

		18/19 Plan	19/20 Plan	Comments
				It is important to note the short-term nature of
	Annual (%)			Reablement, despite the fact that it is often being utilised
Proportion of older people (65 and over) who were still at home 91	Aimaai (70)	92.00/	02.00/	as a default pathway for discharge. The intermediate care
		82.0%	82.0%	and reablement services within the system are well
				established and evidence good outcomes for those
days after discharge from hospital	Numerator			receiving them. An integral part of the reablement offer
into reablement / rehabilitation		82	82	is also now the introduction of TEC and access to home
services		_		adaptations to ensure that interventions are in place to
				better support continued independence for those who
	Denominator			complete a period of reablement or intermediate care.
		100	100	

Please set out the overall plan in the HWB area for increasing the proportion of older people who are still at home 91 days after discharge from hospital into reablement/rehabilitation, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

9. Confirmation of Planning Requirements

Selected Health and Wellbeing Board:

Cambridgeshire

Theme	Code	Planning Requirement	Key considerations for meeting the planning requirement These are the Key Lines of Enquiry (KLOEs) underpinning the Planning Requirements (PR)	Please confirm whether your BCF plan meets the Planning Requirement?	Please note any supporting documents referred to and relevant page numbers to assist the assurers	Where the Planning requirement is not met, please note the actions in place towards meeting the requirement	Where the Planning requirement is not met, please note the anticipated timeframe for meeting it
	PR1	A jointly developed and agreed plan that all parties sign up to	Has a plan; jointly developed and agreed between CCG(s) and LA; been submitted? Has the HWB approved the plan/delegated approval pending its next meeting? Have local partners, including providers, VCS representatives and local authority service leads (including housing and DFG leads) been involved in the development of the plan? Do the governance arrangements described support collaboration and integrated care? Where the strategic narrative section of the plan has been agreed across more than one HWB, have individual income, expenditure, metric and HICM sections of the plan been submitted for each HWB concerned?	Yes			
NC1: Jointly agreed plan	PR2	A clear narrative for the integration of health and social care	Is there a narrative plan for the HWB that describes the approach to delivering integrated health and social care that covers: - Person centred care, including approaches to delivering joint assessments, promoting choice, independence and personalised care? - A clear approach at HWB level for integrating services that supports the overall approach to integrated care and confirmation that the approach supports delivery at the interface between health and social care? - A description of how the local BCF plan and other integration plans e.g. STP/ICSs align? - Is there a description of how the plan will contribute to reducing health inequalities (as per section 4 of the Health and Social Care Act) and to reduce inequalities for people with protected characteristics under the Equality Act 2010? This should include confirmation that equality impacts of the local BCF plan have been considered, a description of local priorities related to health inequality and equality that the BCF plan will contribute to addressing. Has the plan summarised any changes from the previous planning period? And noted (where appropriate) any lessons learnt?	Yes			
	PR3	A strategic, joined up plan for DFG spending	Is there confirmation that use of DFG has been agreed with housing authorities? Does the narrative set out a strategic approach to using housing support, including use of DFG funding that supports independence at home. In two tier areas, has: - Agreement been reached on the amount of DFG funding to be passed to district councils to cover statutory Disabled Facilities Grants? or - The funding been passed in its entirety to district councils?	Yes			
NC2: Social Care Maintenance	PR4	A demonstration of how the area will maintain the level of spending on social care services from the CCG minimum contribution to the fund in line with the uplift in the overall contribution	Does the total spend from the CCG minimum contribution on social care match or exceed the minimum required contribution (auto-validated on the planning template)?	Yes			
NC3: NHS commissioned Out of Hospital Services	PR5	Has the area committed to spend at equal to or above the minimum allocation for NHS commissioned out of hospital services from the CCG minimum BCF contribution?	Does the total spend from the CCG minimum contribution on non-acute, NHS commissioned care exceed the minimum ringfence (auto-validated on the planning template)?	Yes			
NC4: Implementation of the High Impact Change Model for Managing Transfers of Care	PR6	Is there a plan for implementing the High Impact Change Model for managing transfers of care?	Does the BCF plan demonstrate a continued plan in place for implementing the High Impact Change Model for Managing Transfers of Care? Has the area confirmed the current level of implementation and the planned level at March 2020 for all eight changes? Is there an accompanying overall narrative setting out the priorities and approach for ongoing implementation of the HICM? Does the level of ambition set out for implementing the HICM changes correspond to performance challenges in the system? If the current level of implementation is below established for any of the HICM changes, has the plan included a clear explanation and set of actions towards establishing the change as soon as possible in 2019-20?	Yes			

Agreed expenditure plan for all elements of the BCF	PR7	is there a confirmation that the components of the Better Care Fund pool that are earmarked for a purpose are being planned to be used for that purpose?	Have the planned schemes been assigned to the metrics they are aiming to make an impact on? Expenditure plans for each element of the BCF pool match the funding inputs? (auto-validated) Is there confirmation that the use of grant funding is in line with the relevant grant conditions? (tick-box) Is there an agreed plan for use of the Winter Pressures grant that sets out how the money will be used to address expected demand pressures on the Health system over Winter? Has funding for the following from the CCG contribution been identified for the area? - Implementation of Care Act duties? - Funding dedicated to carer-specific support? - Reablement?	Yes		
	PR8	Indication of outputs for specified scheme types	Has the area set out the outputs corresponding to the planned scheme types (Note that this is only for where any of the specified set of scheme types requiring outputs are planned)? (auto-validated)	Yes		
Metrics	PR9	Does the plan set stretching metrics and are there clear and ambitious plans for delivering these?	Is there a clear narrative for each metric describing the approach locally to meeting the ambition set for that metric? Is there a proportionate range of scheme types and spend included in the expenditure section of the plan to support delivery of the metric ambitions for each of the metrics? Do the narrative plans for each metric set out clear and ambitious approaches to delivering improvements? Have stretching metrics been agreed locally for: - Metric 2: Long term admission to residential and nursing care homes - Metric 3: Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement	Yes
