

Chart 1

Number aged up to 25 with SEN statement or EHC Plan (per 1000 of the 2-18 population).

The following chart compares the proportion of children and young people with SEN Statements or EHC Plans. Difference in proportions reflect not only differences in the levels of need but also variations between local authorities in the way that SEN assessments are undertaken, EHC Plans are produced and special provision is made.

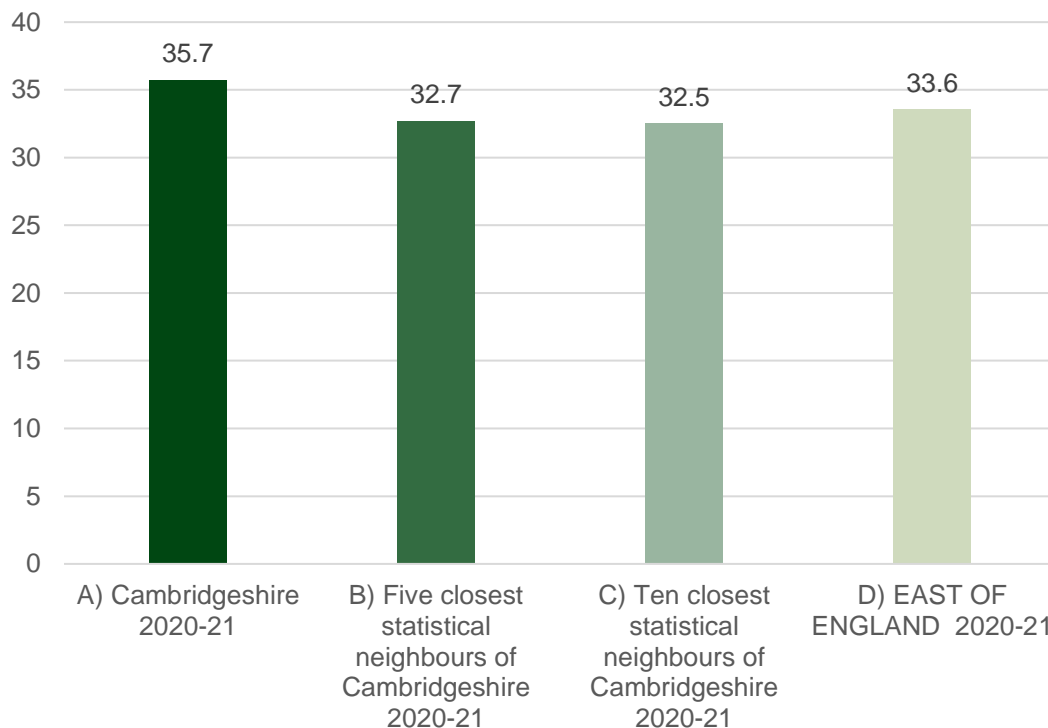

Chart 2

Placement of pupils aged up to 25 with SEN Statement or EHC Plan (per 1000 of the 2-18 population)

The following chart breaks down the proportion of children and young people with SEN statements or EHC plans into where they are placed. All data relates to 2020/21

	<b>Cambridgeshire 2020/21</b>	<b>5 closest Statistical neighbours of Cambridgeshire</b>	<b>10 closest statistical neighbours of Cambridgeshire</b>	<b>East of England</b>
<b>Mainstream schools or academies</b>	14.5	10.9	10.4	12.6
<b>Resourced provision or SEN Units</b>	0.2	1.9	1.5	1.0
<b>Maintained special schools or special academies</b>	9.9	9.9	10.4	10.1
<b>Non maintained special schools or independent schools</b>	1.8	2.1	2	1.5
