2.1 Overall Position

2.2 Outturn Position

See appendix for detailed service tables

Significant Issues – Finance & Procurement

2.2.1 Cambridge Office

- The Finance & Procurement Cambridge Office is predicting an outturn underspend of -£279k.
- The Director of Finance budget is forecasting an underspend of £75k due to part year savings on support staff posts.

2.2.2 Northampton Office

- The Finance & Procurement Northampton Office is predicting an outturn overspend of -£79k.
- There is an overall surplus of £424k in Finance, this has increased from last month by £125k and is mainly attributable to £47k vacancy management, £32k reduction in legal costs, £20k on photocopier and other net savings of £26k.
- There is a cross-service pressure of £487k relating to the payroll project and costs associated with the provision of ERP licenses (a reduction of £4k from last month).
- Internal Audit is forecasting an underspend of £69k for the year. This underspend is primarily due to vacancy management and computer audit costs being less than originally expected.
- There is a forecast underspend of £58k in Procurement due to vacancy management and secondment of a member of staff to Property Asset management.

2.3 Significant Issues – Human Resources & Organisational Design

2.3.1 Cambridge Office

- The Human Resources & Organisational Design Cambridge Office is predicting an outturn overspend of -£1k.
- There are no significant issues in February.

2.3.2 Northampton Office

- The Human Resources & Organisational Design Northampton Office is predicting an outturn underspend of -£526k.
- Within Human Resources there is a managed reduction of £450k in expenditure on Adult Social Care Workforce training an increase of £100k due to the streamlining of courses for essential training.
- There are salary pressures on the HR leadership budget of £65k, which are being offset by savings in salary costs on the HR Professional Services budget and an increase in recharges from services, resulting in a £140k underspend.

2.4 Significant Issues – Operations

2.4.1 Cambridge Office

- The Operations Cambridge Office is predicting an outturn underspend of -£19k.
- The Shared Services Programme budget is showing an overspend of £114k. The shortfall against targeted operational savings has been partially offset by in-year underspends from efficiencies within the Finance Transactions teams, thereby reducing the required draw-down of ITT funding.

2.4.2 Northampton Office

- The Operations Northampton Office is predicting an outturn underspend of -£641k.
- In HR Customer Services there is a pressure of £50k relating to anticipated redundancy costs which is offset by £19k reduction in other forecast expenditure, these costs have arisen from the restructuring of the HR Operations team into an integrated service incorporating payroll.
- Additionally there is a forecast overspend of £178k on the residual Excellence for our Customers (EfoC) programme. This is as a result of the outcome of the calculation of Minimum Revenue Provision (MRP) to fund EfoC capital expenditure (£129k), and also an increase in costs due to the parallel running on the Fujitsu contract.
- A forecast underspend of £850k, made up of the capitalisation of the cost of staff working on capital projects (£450k) and savings relating mainly to contract costs (£400k).

2.5 Significant Issues – Legal

2.5.1 Cambridge Office

- The Legal Cambridge Office is predicting an outturn underspend of £32k.
- There are no significant issues in February.

2.5.2 Northampton Office

- The Legal Northampton Office is predicting an outturn overspend of £446k.
- There is a forecast overspend of £446k following a detailed review of the forecast position for Legal Services. Recharging to internal customers is taking place on a monthly basis, but there is a forecast under-recovery of income as a result of higher than predicted levels of non-chargeable hours. The reduced productivity in the first half of the financial year was due in part to activity being undertaken to achieve Lexcel accreditation. It was hoped that this shortfall would be redressed by increased productivity in the second half of the year but, to date, this has not been sufficient to offset the earlier shortfall. In addition, it is envisaged that the ongoing work on reorganisation and redesign of processes to enable the integration of the Northamptonshire and Cambridgeshire offices will impact upon productivity, although the extent of this is not certain at this point no change from last month.

3.0 Benefits Realisation 2010/11

Savings identified in the Detailed Business Case are scheduled to be realised within the year of transition. It should be noted that within some authority Tier 0/1 costs have continued beyond the go-live date for LGSS.

More detail needs to be obtained for the next report regarding any savings over and above the Business Case, as well as more detail on the on-going Tier 0/1 expenditure.

Below is a summary of progress against the savings targets for 2010/11:

3.3 Progress against 2011/12 target:

Steps are being taken via the integrated planning process to ensure 2011/12 savings are achieved including the publication of the S188 notice for LGSS. Also, it has been identified that the planned saving from the joint procurement of the ERP hosting contract will be greater than estimated by approx \pounds 440k.

4.0 Investment Programme

The investment costs for 2010/11 identified in the Detailed Business Case are shown in the table below.

Further discussions need to take place with workstream leads and project managers regarding the committed expenditure for the current year.

For example the timing of 5) Scanning Solution and 7) Oracle Hosting Setup Costs, could overlap into next financial year and not all happen in the current year. In addition, there is work happening within the IT department that is linked to 4) Technical Infrastructure.
