Total Transport Policy Member Steering Group (Formerly Cambridgeshire Future Transport (CFA)) The purpose of the Group is to assist members in gaining a detailed understanding of some of the opportunities and challenges relating to transport, and of the possible consequences of decisions regarding service levels, fares, etc. The Total Transport project represents the next iteration of the CFT work. It is based on the simple idea that, on the ground, it doesn't make sense for different vehicles to collect neighbouring residents who are making similar journeys but for different purposes (healthcare, education, social care, etc). In rural areas in particular, integrating the provision of transport will allow scarce resource to be used more efficiently, so that the impact of reduced budgets can be softened.	2	8	Councillor A Bailey (Con) Councillor D Giles (Ind.)
