1.4 Significant Issues – People & Communities

Significant issues within People and Communities are set out in the paragraphs below. Appendix 1 provides the detailed financial information by service, with Appendix 1a providing a more detailed breakdown of areas funded directly from the Dedicated Schools Grant (DSG) and Appendix 3 providing a narrative from those services with a significant variance against budget.

1.4.1 Adults

Like councils nationally, Adult Services in Cambridgeshire has faced rising costs for several years. This has been due to increasing numbers of people being supported, and the rising cost of care home and home care provision due to both the requirement to be compliant with the national living wage and the increasing complexity of needs of people receiving care (both older people and working age adults).

The pandemic shifted the cost trends we have been seeing, particularly impacting demand for home care provision for Older People which has not been growing at pre pandemic rates. However, the cost of provision has continued to rise and the pandemic, followed by the current cost of living crisis, have placed further cost pressures on to providers and the Council.

The financial position of this service is considerably uncertain. There is a growing number of people who have survived Covid, being left with significant needs, and many vulnerable adults have developed more complex needs as they have not accessed the usual community-based or early help services due to lockdown. The impact of delayed health care treatments such as operations will also impact individual needs and health inequalities negatively. It is anticipated that demand will increase as we complete more annual reviews, many of which are outstanding due to the pandemic.

Workforce difficulties are widespread in the care sector and the Council provided additional funding through the budget for 2022/23 to help to go some way to address these issues with care providers. However, the recruitment and retention issues in the care sector are a long term national issue to be addressed nationwide. The government's social care reforms are due to take effect in October 2023. These will require additional social care and financial assessments staff within the Council to deal with the increased number of assessments the reforms will generate. Recruitment to these posts will be challenging against a backdrop of the current high level of vacant posts, current recruitment difficulties and a national shortage of staff experienced in these roles.

Care providers are continuing to report cost pressures related to both workforce issues and the current cost of living rises. These are putting pressure on uplift budgets across all care types. In addition, the position of the care market, particularly related to workforce issues, is making some placements more difficult to source particularly at the more complex end of provision. This puts further pressure on costs.

In line with the government's social care reform agenda the Council is currently undertaking "fair cost of care" exercises with both homecare and care home providers. It is anticipated that the outcomes of these exercises nationwide will be a gap for some Councils between what is currently paid and the newly assessed "fair cost of care". Whilst we have some funding from government for 2022/23 to start to close this gap, there may well be a pressure to be addressed over the coming years to reach a point where care providers are paid the "fair cost of care".

Hospital Discharge systems continue to be pressured and NHS funding for discharge pathways ended in March 2022. The medium-term recovery of clients assessed as having primary health needs upon hospital discharge return to social care funding streams and this will increase our costs from 2021/22.

Work has started to understand future demand, cost pressures and the financial implications of the social care reforms. This work will feed into business planning for 2023-34 and beyond.

1.4.2 Children's

At the end of 2021/22 Children's and Safeguarding (including the CiC placement budget held in Commissioning) reported a final net underspend of circa £3m. The majority of this underspend was as a result of an over achievement of the vacancy savings target across the service due to a combination of the difficulty in recruiting to Social Workers posts and also posts becoming vacant with recruitment to vacancies taking longer than anticipated in the current climate. This situation in respect of staffing levels continues to be monitored closely and work is underway to introduce a short-term dedicated team to support recruitment, development and retention within the children's workforce.

1.4.3 Education

Transport - All transport budgets have been impacted by the underlying national issue of driver availability which is seeing less competition for tendered routes. This has also resulted in numerous contracts being handed back by operators as they are no longer able to fulfil their obligations and alternative, often higher cost, solutions are required. The increase in fuel costs is also placing further pressure on providers and as such the service are carefully monitoring the situation which is likely to result in higher future costs as and when we retender existing contracts.

Dedicated Schools Grant (DSG) –Appendix 1a provides a detailed breakdown of all DSG spend within P&C. The budget figures are net of recoupment for academies and High Needs place funding.

Due to the continuing increase in the number of children and young people with an EHCP, and the complexity of need of these young people, the overall spend on the High Needs Block element of the DSG funded budgets has continued to rise. At the end of 2021/22 there was a net DSG overspend of £12.43m to the end of the year. When added to the existing DSG deficit of £26.83m this resulted in a cumulative deficit of £39.26m to be brought forward into 2022/23.

In 2020-21 the DfE introduced the safety valve intervention programme in recognition of the increasing pressures on high needs. A total of 14 local authorities have now signed up to agreements, and the programme is being expanded to a further 20 local authorities, including Cambridgeshire in 2022-23.

The programme requires local authorities to develop substantial plans for reform to their high needs systems, with support and challenge from the DfE, to rapidly place them on a sustainable footing. If the authorities can demonstrate sufficiently that their DSG management plans create lasting sustainability and are effective for children and young people, including reaching an in-year balance as quickly as possible, then the DfE will enter into an agreement with the authority, subject to Ministerial approval.

If an agreement is reached, local authorities are held to account for the delivery of their plans and hitting the milestones in the plans via quarterly reporting to the DfE. If adequate progress is being made, authorities will receive incremental funding to eliminate their historic deficits, generally spread over five financial years. If the conditions of the agreement are not being met, payments will be withheld.

Senior Officers have met with the DfE in May to discuss the current situation and plans, and as such updates will be provided in due course.

1.4.4 Communities

Public Library Services currently have an underlying pressure as a result of increased costs and reduced levels of income. Work is underway to identify opportunities for increasing income and making further savings. Once the outcomes of this piece of work have been finalised the revised in-year forecast position will be reported.

Registration Services continue to face challenges in respect of meeting income targets. Although now relaxed, Covid related restrictions on numbers attending ceremonies are likely to have an impact on the level of income received.

1.5 Significant Issues – Public Health

The Public Health Directorate is funded wholly by ringfenced grants, mainly the Public Health Grant. The work of the Directorate was severely impacted by the pandemic, as capacity was re-directed to outbreak management, testing, and infection control work. However, the majority of the pandemic work has now come to an end and the Directorate is focussed on returning business as usual public health activity to full capacity as soon as possible and addressing issues arising from the pandemic which have impacted on the health of the County's population.

At the end of May, the Public Health Directorate is forecasting a balanced budget. However, there are continuing risks to this position:

- i) much of the Directorate's spend is contracts with, or payments to, the NHS for specific work. The NHS re-focus on the pandemic response and vaccination reduced activity-driven costs to the PH budget throughout 2020/21 and 2021/22 and it may take some time for activity levels to return to pre pandemic levels;
- ii) the unprecedented demand for Public Health staff across the country has meant recruitment has been very difficult through the pandemic resulting in underspends on staffing budgets. This position may continue into 2022/23; and
- iii) recruitment challenges are reflected in our provider services which has affected their ability to deliver consistently.

Detailed financial information for Public Health is contained in Appendix 2, with Appendix 3 providing a narrative from those services with a significant variance against budget.

2. Capital Executive Summary

2022/23 In Year Pressures/Slippage

The P&C Capital Plan for 2022/23 has reduced by £33.259m since the Business Plan was published, resulting in a revised budget of £65.098m. This reduction is due the combination of schemes being removed or added, delayed into future years and changes to carry forward positions from 2021/22. The schemes with major variations of £500k or greater are listed below;

Scheme		2022/23 change (£000)	Overall Scheme Change (£000)
North West Cambridge (NIAB site) primary	Slipped	-7,499	0
Ermine Street Primary, Alconbury, Phase 2	Slipped	-1,756	0
St Philips Primary School	Slipped	-1,046	0
Waterbeach New Town Primary	Slipped	-8,013	0
Pathfinder - Northstowe	Additional	350	350
Northstowe secondary	Removed	-571	-571
Alconbury Weald secondary and Special	Slipped	-609	5,000
Sir Harry Smith Community College	Slipped	-1,243	0
Cambourne Village College Phase 3b	Slipped	-4,997	5,920
Duxford Community C of E Primary School Rebuild	Slipped	-745	865
School Condition, Maintenance & Suitability	Additional	616	616
Samuel Pepys Special School	Slipped	-2,915	0

Scheme		2022/23 change (£000)	Overall Scheme Change (£000)
Acquisition of Land North of Cherry Hinton (LNCH)	Slipped	-900	0
Independent Living Service: East Cambridgeshire	Slipped	-9,222	1,260
Capital Variation	Reduction	4,070	4,070

The following changes in funding for 2022/23 have occurred since the Business Plan was published:

- School Conditions Allocation grant funding increase of £866k.
- Adjustment to carry forward funding increased by £6,921k.
- Devolved formula capital reduced by £4k
- Other contributions reduced by £1.2k
- Additional SEN funding announced for Cambridgeshire £6,778k
- Section 106 funding reduced by £10,142k to account for slippage on projects since the business plan was approved.
- Prudential Borrowing reduced by £35,125k to account for savings and slippage on projects since the business plan was approved.

At the end of May 2022, the capital programme forecast underspend is zero. The level of slippage and underspend in 2022/23 is currently anticipated to be £0k and as such has not yet exceeded the revised Capital Variation Budget of £9,502k. A forecast outturn will not be reported unless this happens.

Details of the currently forecasted capital variances can be found in Appendix 4.

3. Savings Tracker Summary

The savings tracker is produced quarterly to monitor delivery of savings against agreed plans. The first savings tracker of 2022/23 will be produced at the end of June.

4. Technical note

On a biannual basis, a technical financial appendix is included as Appendix 6. This appendix covers:

- Grants that have been received by the service, and where these have been more or less than expected
- Budget movements (virements) into or out of P&C from other services (but not within P&C), to show why the budget might be different from that agreed by Full Council
- Service reserves – funds held for specific purposes that may be drawn down in-year or carried-forward – including use of funds and forecast draw-down.

5. Key Activity Data

The Actual Weekly Costs for all clients shown in section 5.1.1 - 5.2.6 are calculated based on all clients who have received a service, are receiving a service, or we plan will receive a service. Some clients will have ceased receiving a service in previous months, or during this month, or we will have assumed an end date in the future.

5.1.2 Key activity data at the end of May 2022 for SEN Placements is shown below:

The following key activity data for SEND covers 5 of the main provision types for pupils with EHCPs.

Budgeted data is based on actual data at the close of 2021/22 and an increase in pupil numbers over the course of the year.

Actual data are based on a snapshot of provision taken at the end of the month and reflect current numbers of pupils and average cost

5.2 Adults

In the following key activity data for Adults & Safeguarding, the information given in each column is as follows:

- Budgeted number of care services: this is the number of full-time equivalent (52 weeks) service users anticipated at budget setting
- Budgeted average unit cost: this is the planned unit cost per service user per week, given the budget available
- Actual care services and cost: these reflect current numbers of service users and average cost; they represent a real time snapshot of service-user information.

A consistent format is used to aid understanding, and where care types are not currently used in a particular service those lines are greyed out.

The direction of travel (DoT) compares the current month's figure with the previous month.

The activity data for a given service will not directly tie back to its outturn reported in Appendix 1. This is because the detailed variance include other areas of spend, such as care services which have ended and staffing costs, as well as the activity data including some care costs that sit within Commissioning budgets.

5.2.1 Key activity data at the end of May 2022 for Learning Disability Partnership is shown below:

Appendix 3 – Service Commentaries on Outturn Position

Narrative is given below where there is an adverse/positive variance greater than 2% of annual budget or £100,000 whichever is greater for a service area.

1) SEND Financing DSG

Budget 2022/23 £'000	Actual £'000	Forecast Outturn Variance £'000	Forecast Outturn Variance %
-9,752	8	11,800	121%

Due to the continuing increase in the number of children and young people with Education, Health and Care Plans (EHCPs), and the complexity of need of these young people, the overall spend on the High Needs Block element of the DSG funded budgets has continued to rise. The current in-year forecast reflects the initial latest identified shortfall between available funding and current budget requirements.

2) Financing DSG

Budget 2022/23 £'000	Actual £'000	Forecast Outturn Variance £'000	Forecast Outturn Variance %
-102,708	-17,423	-11,800	-11%

Above the line within P&C, £102.7m is funded from the ring-fenced DSG. Net pressures will be carried forward as part of the overall deficit on the DSG.

The schemes with significant variances (>£250k) either due to changes in phasing or changes in overall scheme costs can be found below:

P&C Capital Variation

The Capital Programme Board recommended that services include a variations budget to account for likely slippage in the capital programme, as it is sometimes difficult to allocate this to individual schemes in advance. The allocation for P&C's negative budget has been revised and calculated using the revised budget for 2022/23 as below. Slippage and underspends in 2022/23 result in the capital variations budget being fully utilised.
