1. Background

- 1.1 The appendix attached provides the financial position for the whole of Place & Sustainability Directorate, and as such, not all of the budgets contained within it are the responsibility of this Committee. To aid Member reading of the finance monitoring report, budget lines that relate to the Highways and Transport Committee are unshaded and those that relate to the Environment and Green Investment Committee are shaded. Members are requested to restrict their questions to the lines for which this Committee is responsible.
- 1.2 This report is intended to give Committee an update on the financial position of Place & Sustainability Directorate and detail forecast pressures and underspends across the different services and an explanation for variances.

2. Main Issues

- 2.1 Revenue: Across Place & Sustainability Directorate, the year-end position was a £415K overspend which is in line with what was forecast in the previous months. Appendix 2 details the variances.
- 2.2 Capital: In February the Service forecast a £6.7m in-year underspend across the capital programme (after adjustment for the capital programme variation) and at year end the underspend was £5.7m. Appendix 6 details the variances. The May Finance Monitoring Report for 2023/24 identifies all the proposed capital carry-forwards and re-profiling of the capital programme.

3. Alignment with corporate priorities
