Date: 2 October 2018

Dear Ms Wass

Town and Country Planning Act 1990

Construction of a heat and power plant comprising biomass energy from waste (fluidised bed combustion) facility and treatment of waste water by evaporation treatment plant and associated infrastructure comprising tank farm, combustor with 25 metre high chimney, process building, store building, office building, walking floor canopy, car park, fuel storage bays, fire water tank, conveyor, pipe gantry, diesel tank, control room, auxiliary plant skid, high voltage transformers

Application Number: H/5002/18/CW

I refer to the above application which has been the subject of third party requests to call in for determination by the Secretary of State for Housing, Communities and Local Government.

The Secretary of State has carefully considered this case against call-in policy, as set out in the Written Ministerial Statement by Nick Boles on 26 October 2012. The policy makes it clear that the power to call in a case will only be used very selectively.

The Government is committed to give more power to councils and communities to make their own decisions on planning issues, and believes planning decisions should be made at the local level wherever possible.

In deciding whether to call in this application, the Secretary of State has considered his policy on calling in planning applications. This policy gives examples of the types of issues which may lead him to conclude, in his opinion that the application should be called in. The Secretary of State has decided, having had regard to this policy, not to call in this application. He is content that it should be determined by the local planning authority.

In considering whether to exercise the discretion to call in this application, the Secretary of State has not considered the matter of whether this application is EIA Development for the purposes of the Town and Country Planning (Environmental Impact Assessment) Regulations 2017. The local planning authority responsible for determining this application remains the relevant authority responsible for considering whether these Regulations apply to this proposed development and, if so, for ensuring that the requirements of the Regulations are complied with.

Yours sincerely

Maria Bowen

Maria Bowen
Higher Planning Officer
