**Regional
Surge
Centre**

**ED and
Critical
Infrastructure**

From
**January
2021**

2021/22

Phase Two

**Cambridge
Cancer
Research
Hospital***

**Cambridge
Children's**

Opening
2025/26

Opening
2025/26

Phase Three

**Further Developments
such as Acute hospital**

Building from
**2025
onwards**

* Includes potential Diagnostics Centre

Cambridge University Hospitals NHS Foundation Trust - Hospital development plot placement

Key:

- Regional Surge Centre
- Cambridge Cancer Research Hospital
- Cambridge Children's Hospital
- Acute/General Hospital
- Future hospital expansion/replacement
- Future land (option to purchase)

Cambridge Cancer Research Hospital

A partnership between:

- cutting edge clinical excellence at CUH
- world-leading Cambridge research and industry

Comprising:

- Two new research institutes-

National Institute for the Early Detection of Cancer
Institute for Integrated Cancer Medicine

Forming a hub with NHS clinical services to ensure research outputs are quickly, safely and widely disseminated

- High-quality NHS facilities in which to treat cancer patients

79 inpatient beds (100% single rooms) for Oncology Haematology and Bone marrow transplant patients

State of the art outpatient and diagnostic facilities

Day case chemotherapy units for Oncology and Haematology

Integrated mental health, patient information and wellness suite

Areas for discussion:

- Addressing health inequalities
- Economic development – how the campus can drive life sciences growth locally
- Waiting times for cancer treatment
- Patient engagement and co-production
- Funding
- Transport - infrastructure
