

Highways and Transport Committee – 3 December 2024

Agenda Item No. 3 – Petitions

Petition requesting repairs to Coton's road:

We the undersigned petition the council to deal with the uneven road surface resulting from severe subsidence and properly repair the potholes in Brook Lane and Grantchester Road from The Plough in Coton to the Barton Road roundabout.

The potholes are causing severe damage to cyclists' tyres, car tyres and suspension. They are also a real danger as drivers swerve to avoid the worst of the potholes. A bad accident is almost inevitable.

We are dismayed that some previous requests for remedial work have been ignored by your department. Marking of the worst potholes with yellow paint has been your only recent response and you have not met your own timetable for completing repairs. This is unacceptable.

Please treat this matter as urgent.
