

**CAMBRIDGESHIRE AND PETERBOROUGH HEALTH AND CARE SYSTEM
TRANSFORMATION PROGRAMME**

To: Health and Wellbeing Board

Date: 2 July 2015

From: Dr Neil Modha, Chief Clinical Officer (Accountable Officer)
Cambridgeshire and Peterborough Clinical Commissioning Group

1.0 PURPOSE

1.1 Cambridgeshire and Peterborough Health and Care System Transformation Programme last presented information to the Health and Wellbeing Board on 30 April 2015. This paper updates the Health and Wellbeing Board on this planning process.

- Strategic aims and values of the programme
- Strategic Planning Process
- NHS England second wave Vanguard applications for acute hospitals

2.0 BACKGROUND

2.1 Strategic aims and values

The strategic aims and values of the programme are unchanged and are:

- People at the centre of all that we do
- Empowering people to stay healthy
- Developing a sustainable health and care system
- Improving quality, improving outcomes

2.2 The strategic planning process

Cambridgeshire and Peterborough Clinical Commissioning Group (CCG) is leading a process to plan changes to the health system that will improve outcomes for people and enable financial sustainability. This process involves providers, partners and patients and has four phases.

The programme is currently in Phase 2. These are the key elements of this phase:

- Detailed analysis of the issues facing the health system, working with key stakeholders about areas of challenge
- Engagement with the public around the key challenges facing the health system now and into the future
- Getting feedback from the public about current services and how they think things could change.

Between October and December there will be a second phase of engagement that focuses on discussing the potential solutions and options for change.

The next steps will depend on the outcome of the engagement process. The earliest that any formal public consultation would take place is January 2016.

2.3 Second wave of “Vanguard” site applications

The NHS England New Models of Care Programme aims to co-design different types of new care models for the NHS. More details of these models can be found in the “Five Year Forward View“. The link is in the ‘Source Documents’ table below.

In January the Cambridgeshire and Peterborough System applied to be a Vanguard site. The application was not successful. NHS England has now launched a second stage application process that centres on collaboration between acute hospitals A link to the NHS England Acute Care Collaboration website is in the ‘Source Documents’ table below.

The closing date for applications is 31 July 2015 and the System Transformation Programme will consider whether to apply.

3 RECOMMENDATIONS

Health and Wellbeing Board members are asked to discuss the progress of the programme to date and to make comments.
