MWLP/Minor/03	<b>Para 3.29</b>	<p>Make textual change to update reference as follows:</p> <p><i>It is estimated that in 2017, waste arisings within the plan area totalled around 2.782 million tonnes per annum (Mtpa) of various types of waste including municipal, commercial &amp; industrial (C&amp;I), construction, demolition &amp; excavation (CD&amp;E) and hazardous wastes (see Figure <del>12</del>-below). The majority of this waste was recycled or otherwise recovered, with disposal to landfill (non-hazardous and inert) accounting for around a third.</i></p>	To ensure accurate references for users of the plan	No
MWLP/Minor/04	<b>Para 3.33</b>	To make textual change as follows:	For clarity and accuracy.	No

		<i>Accordingly, areas which presently have a net export of waste have, or are, moving to a position whereby they deal with more of their own waste. Likewise, areas that historically and presently have a net import of waste (such as the Cambridgeshire-Peterborough plan area) should see such net imports significantly reduced. In providing for waste management facilities the intention, therefore, is for this Local Plan to determine the likely waste arising that will occur, and set out the identified needs of the plan area as a whole in relation to waste management capacity, in order to achieve net self-sufficiency, and at the same time drive waste up the hierarchy.</i>
