

Children and Young People Policy and Service Committee Training Plan

At the meeting of Children and Young People (CYP) Committee spokesmen/women on 14th May it was agreed that a menu of potential topics for development should be circulated to the committee to gauge interest. The topics are based on the seminars offered as part of Member induction last year.

The number of Members interested in a topic would determine the format the information is given from a 1:1 to a seminar. In order to best make use of officer time, it would be helpful if you could specify topics you wish to attend, as well as use the free text box to put forward any other gaps in knowledge around CYP services that you would like met.

Name:

.....

In order to best meet your requirements, please state what days and times are best for you to attend?

.....

Topic	Would like training and development
Special Educational Needs – strategy, role and operational delivery	<input type="checkbox"/>
