

## Appendix 1 - Proposed Policy Changes with the Greatest Impact

Policy	Proposed Change
Operational Hours  [Policy: Section 5]	<b>Proposed:</b> Enforcement of residents' bays (where applicable) on Bank Holidays with the exception for Christmas day. <b>Why:</b> provides residents parking priority on days where there is potentially an irregular influx of traffic <b>Impact:</b> Cost, residents will need to supply visitor permits to their visitors.
Scheme Criteria  [Policy: Section 7.3]	<b>Proposed:</b> Moving the provision of providing the scheme prioritising criteria, from officers to the local county Council member in consultation with the local community. <b>Why:</b> The collection of assessment-based criteria is resource heavy and is undeliverable with current staffing levels. This moves the emphasis of collating this data to the local councillor and will form part of the scheme justification. <b>Impact:</b> Reduced pressure on limited officer resources.
Property Eligibility  [Policy: Section 10.2]	<b>Proposed:</b> an appeals route if an application is refused on property eligibility grounds. <b>Why:</b> Allows the personal circumstance and situation of rejected applicants to be reviewed and assessed independently by the Service Director. <b>Impact:</b> Increased permit numbers and an increased demand on limited parking capacity. Setting an unsustainable precedence. Manageability and resource implication for officers, the Service Director
Vehicle eligibility  [Policy: Section 10.3]	<b>Proposed:</b> extension in maximum vehicle length from 5m to 5.4m. (stage 2 look at permit discount to promote smaller and lighter vehicles. <b>Why:</b> With the increase in the size of a 'family' car, this allows owners of larger family vehicles to apply for resident permits. (Tesla X/Audi Q7 just under 5.1m and just under Ford Ranger 5.4) <b>Impact:</b> Small commercial vehicles may be eligible for permits. Increase parking demand and reduced parking capacity.
Revoking Permits  [Policy: Section 10.13]	<b>Proposed:</b> Formalise the process surrounding revoking permits. <b>Why:</b> clarity for the back-office team and transparency and fairness for residents. <b>Impact:</b> Difficulty in address individual circumstances within this prescriptive policy. If permits were revoked, residents would need to seek alternative parking.
