

## Appendix A: Health and Wellbeing Board themed meeting template

<b>Meeting theme:</b>	
<b>Priority 4 – Create a safe environment and help to build strong communities, wellbeing and mental health</b>	
<b>Focus areas:</b>	
<ul style="list-style-type: none"> <li>• Implement early interventions and accessible, appropriate services to support mental health, particularly for people in deprived areas and in vulnerable or marginalised groups.</li> <li>• Work with partners to prevent domestic violence, raise public awareness especially amongst vulnerable groups, and provide appropriate support and services for victims of domestic abuse.</li> <li>• Minimise the negative impacts of alcohol and illegal drugs and associated antisocial behaviour on individual and community health and wellbeing.</li> <li>• Work with local partners to prevent and tackle homelessness and address the effects of changes in housing and welfare benefits on vulnerable groups.</li> </ul>	
<b>1.</b>	<p><b>Overarching partnership delivering against this priority and how this links to the Health and Wellbeing Board</b></p> <p>There is a proposal for a Mental Health Forum which will work to link all the key mental health strategies together. This is also strongly linked to the CCG System Transformation Mental Health Workstream and commissioning across local authorities and the CCG to avoid duplication.</p> <p><b>Alcohol and Drugs - Governance</b></p> <p>Partnership work is central to addressing and responding to substance misuse in Cambridgeshire in a coordinated approach, influencing and initiating a range of work streams that focus upon reducing harms to individuals, families, organisations and communities. The Drug and Alcohol Action Team (DAAT) is the multi-agency strategic partnership working to implement National and local Drug and Alcohol priorities. The functions of the DAAT sit within the 'Cambridgeshire Safer Communities Partnership Team' which is hosted within Cambridgeshire County Council.</p> <p>The DAAT Partnership Board leads on strategic development and oversight of prevention and treatment interventions and related commissioning. The Partnership includes a range of key partners which includes the Cambridgeshire Constabulary, Cambridgeshire and Peterborough Clinical Commissioning Group (CCG), Cambridgeshire County Council, Office of the Police and Crime Commissioner (PCC), District Councils, Probation services, service user representation and voluntary agencies.</p>

The Drugs and Alcohol Commissioning Group (DACG) has a wide ranging partner membership, is accountable to the DAAT Board and has clinical, financial and operational oversight for strategic and commissioning work. The DAAT is supported by an officer Team that facilitates and undertakes work across the county.

Historically drugs and alcohol work was funded through pooled budgets and shared resourcing from members of the Partnership. The majority of the funding is now from the Public Health Grant, held by the Local Authority with small contributions from Adult Social Care (CCC), Office of the Police and Crime Commissioner (PCC) and Cambridgeshire City Council. The Director of Public Health has a mandatory responsibility for ensuring that there are effective substance misuse services and for providing assurance to Public Health England that the use of the Public Health Grant meets the terms and conditions of the Grant.

A representative from the DAAT Partnership also sits on all of the local Community Safety Partnerships (CSPs) and on the countywide Community Safety Board to ensure that drug and alcohol work is driven at both a local and countywide level. Good partnership working ensures that agencies work closely with District Councils to respond to local issues such as street drinking, alcohol related violent crime, anti-social behaviour, and night time economy issues. A representative from Public Health also sits on the countywide Community Safety board.

#### **Abuse and Sexual Violence**

A multi-agency Domestic Abuse Governance Board was re-established in November 2013 following a peer review of the existing Partnership from Standing Together as part of a Home Office funded programme of support for local partnerships.

The work of the Domestic Abuse and Sexual Violence Partnership can be found at:

4.	<b>Joint commissioning and Section 75 arrangements</b>	The Section 75 Agreement between CCC and CPFT was signed of November 2014. The first Annual Report by CPFT will be taken to the Adults Committee in September by Deborah Cohen Director of Integrated Services CPFT.

		<p>A joint commissioning arrangement for mental health is planned across Cambridgeshire County Council and Peterborough City Council. This will be supported by joint work with the CCG mental health commissioning team.</p>
<p>5.</p>	<p><b>Alignment of NHS Cambridgeshire and Peterborough Clinical Commissioning Group's (CCG) commissioning plans with this priority</b></p>	<p>The CCG mental health commissioning team have outlined their short term priorities and are working through the System Transformation Mental Health workstream on the longer term (five year) picture in terms of mental health services. The CCG commissioning priorities align well with this priority and the focus is on developing a more resilient and more equitable service model for mental health, even more focussed on “recovery”, and better equipped to face the demand and financial challenges anticipated during the next five years. Parity of Esteem will begin to be rebalanced in 2015/16.</p> <p><b>Key Measures of Success include:</b></p> <ul style="list-style-type: none"> <li>• An enhanced role for primary care in the management of stable Serious Mental Illness patients (this will also improve physical health outcomes)</li> <li>• An expanded role for the voluntary sector both as an alternative to secondary mental health services and providing support to people post-discharge from these services</li> <li>• An expanded role for the Recovery College, more peer support and more help for carers</li> <li>• An increased locality focus to mental health services, better integrating mental and physical health and the use of local community resources</li> <li>• Easier access to secondary mental health services, including streamlined processes for referral to the single-point-of-access and from there to local community teams</li> <li>• Improved crisis care for patients across the health, social care, criminal justice system</li> <li>• Provision of psychological therapies on a “whole-system” basis, including self-referral and direct access for people with long-term conditions</li> <li>• Enhanced specialist mental health input to the rest of the local health system</li> </ul>
