This contains confidential and proprietary information of Mercer and is intended for the exclusive use of the parties to whom it was provided by Mercer. Its content may not be modified, sold or otherwise provided, in whole or in part, to any other person or entity, without Mercer's prior written permission.

The findings, ratings and/or opinions expressed herein are the intellectual property of Mercer and are subject to change without notice. They are not intended to convey any guarantees as to the future performance of the investment products, asset classes or capital markets discussed. Past performance does not guarantee future results. Mercer's ratings do not constitute individualised investment advice.

Information contained herein has been obtained from a range of third party sources. While the information is believed to be reliable, Mercer has not sought to verify it independently. As such, Mercer makes no representations or warranties as to the accuracy of the information presented and takes no responsibility or liability (including for indirect, consequential or incidental damages), for any error, omission or inaccuracy in the data supplied by any third party.

This does not contain regulated investment advice in respect of actions you should take. No investment decision should be made based on this information without obtaining prior specific, professional advice relating to your own circumstances.

This does not constitute an offer or a solicitation of an offer to buy or sell securities, commodities and/or any other financial instruments or products or constitute a solicitation on behalf of any of the investment managers, their affiliates, products or strategies that Mercer may evaluate or recommend.

For the most recent approved ratings of an investment strategy, and a fuller explanation of their meanings, contact your Mercer representative.

For Mercer's conflict of interest disclosures, contact your Mercer representative or see www.mercer.com/conflictsofinterest.

Mercer's universes are intended to provide collective samples of strategies that best allow for robust peer group comparisons over a chosen timeframe. Mercer does not assert that the peer groups are wholly representative of and applicable to all strategies available to investors.

Please also note:

- The value of investments can go down as well as up and you may not get back the amount you have invested. In addition investments denominated in a foreign currency will fluctuate with the value of the currency.
- The valuation of investments in property based portfolios, including forestry, is generally a matter of a valuer's opinion, rather than fact.
- When there is no (or limited) recognised or secondary market, for example, but not limited to property, hedge funds, private equity, infrastructure, forestry, swap and other derivative based funds or portfolios it may be difficult for you to obtain reliable information about the value of the investments or deal in the investments.
- Care should be taken when comparing private equity / infrastructure performance (which is generally a money-weighted performance) with quoted investment performance (which is generally a time-weighted performance). Direct comparisons are not always possible.

Chris West

Overview

Executive Dashboard

Funding

The present value of the Fund's liabilities increased slightly over the quarter by c.£50m to a total of c.£2.85bn.

The Fund's assets (including cash) increased marginally over the quarter by £41m to £4,821m as at 30 September 2024 and have also increased by £537m over the last twelve months.

The estimated funding level at 30 September 2024 slightly decreased to c.169%, from c.171% as at 30 June 2024.

The funding level at 31 March 2022 (the date of the previous actuarial valuation) was 125%.

Performance

Short Term Performance

The Fund underperformed the benchmark over the quarter (returning 0.8% vs 2.1%).

Key Contributors to Relative Performance – Quarter

Underperformance in Private Equity	-0.8%
Underperformance by JO Hambro - Global Equity	-0.2%

Longer Term Performance

	Fund	B'mark
Quarter (%)	0.8	2.1
1 Year (%)	12.1	15.7
3 Years (% p.a.)	4.4	6.0

Asset Allocation

Over the quarter, a number of asset transitions were undertaken in order to move towards the Fund's target strategic asset allocation.

The most significant movements comprised the planned redemption of M&G Secured Loans, totaling c. £81m, a £15m investment in UBS index-linked gilts and the purchase of units in the JPM infrastructure fund totaling c.£23.9m (completed on 1st October).

Overweight		Underweight	
Equities	+4.3%	Fixed Income	-1.9%
		Alternatives	-2.4%

Funding

Funding Level since March 2016 Valuation

Source: Hymans Robertson & WM Performance Reports. Figures don't reconcile with the Hymans Robertson Funding report due to differences in the total asset value. The Funding Level is a ratio of assets to liabilities.

Allocation

	30/06/2024 Market Value (£M)	30/09/2024 Market Value (£M)	30/06/2024 Allocation (%)	30/09/2024 Allocation (%)	30/09/2024 B'mark (%)
Total Invested Assets	4,735.5	4,726.4	100.0	100.0	100.0
Equities	2,170.6	2,211.4	45.8	46.8	42.5
Fixed Income	1,058.2	1,092.4	22.3	23.1	25.0
Alternatives	1,506.7	1,422.6	31.8	30.1	32.5

Source: Investment Managers, Link Asset Services and Mercer.

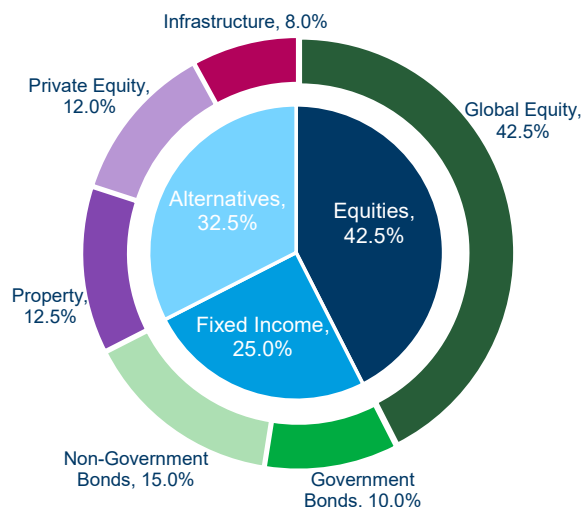

Figures may not sum to total due to rounding.

The total market value shown in the table above excludes cash (c. £44.2m at the start of quarter and c. £94.6m at the end of quarter).

Benchmark allocation reflects the Fund's agreed investment strategy. However, some deviation is expected in the short-term as the Fund transitions towards this. As such, for total benchmark performance measurements purposes, the benchmark allocation is equal to the actual fund allocation, from 31 March 2023.

End of quarter JPM Valuation includes £23.9m (\$32.1m) purchase that settled on October 1st.

Benchmark Asset Allocation as at 30 September 2024

Deviation from Benchmark Asset Allocation

Benchmark allocation is shown for representative purposes. For performance measurement purposes, from 31 March 2023 given the transitions, we have assumed that the benchmark allocation is equal to the actual fund allocation.

Manager Allocation (1/3)

M&G - Multi-Asset Credit	1.7	3.3	11.3	12.2	5.7	3.7	--	--

Figures shown are net of fees and based on performance provided by the Investment Managers, Link Asset Services, WM, Mercer estimates and LSEG Datastream.

Total Equities, Total Fixed Income, Total Alternatives and Total Fund performance includes the performance of terminated mandates.

Total and Equities (inc. Equity Options) fund performance include the contribution of the equity protection strategy managed by Schroders during the period from 26 November 2019 to 5 June 2023.

The return for BlueBay MAC was estimated as the change in valuation, as the quarterly return was not available at the time of writing.

M&G Multi-Asset Credit performance figures are reported by Link Asset Group with one month lag.

M&G Shared Ownership last quarter performance is always assumed zero due the lag in final data.

Total Fund and Alternatives performances include quarterly performances for the private markets managers, calculated by Mercer using a Modified Dietz approach based on data provided by these managers. Over the long term, performances are chain linked using quarterly Total Fund performances. Performance shown is net of illiquid mandates' fees. Performance for the underlying private equity and infrastructure mandates is calculated by Mercer using an IRR approach and shown in the GBP currency with a quarter lag. Benchmark performance shown for the underlying private equity mandates is the rolling 3 year MSCI World Index return, averaged on a quarterly basis.

Dodge & Cox performance is monitored against the MSCI AC World Value Index, but the MSCI AC World (NDR) Index is used in total benchmark performance calculations.

For performance measurement purposes the benchmark allocation is equal to the actual fund allocation from 31 March 2023.

Dodge & Cox performance is monitored against the MSCI AC World Value Index, but the MSCI AC World (NDR) Index is used in total benchmark performance calculations.

BlueBay - Multi-Asset Credit, M&G - Multi-Asset Credit: composite benchmark is 50% ICE BofAML Global High Yield Constrained and 50% Morningstar LSTA US Leveraged Loan 100 Hedged.

Aviva - Long Lease Property, M&G - Residential Property, M&G - Shared Ownership: composite benchmark is 66.7% MSCI UK Monthly Property Index and 33.3% Absolute Return of 5.0% p.a.

The benchmark allocation is shown for representative purposes, due to the client being in transition. As such, for total benchmark performance measurements purposes, the benchmark allocation is equal to the actual fund allocation, from 31 March 2023.

Appendix B

Detailed Attribution Analysis – Quarter

Please note that the relative return and relative weight charts use unrounded performance and allocation figures to calculate the relative difference, hence the numbers are not directly comparable to the implied relative difference given in the performance and allocation tables.

All Global Equity Funds use MSCI AC World index as the underlying benchmark. Total Fund performance figures exclude the Cambridgeshire and Counties Bank and Cambridgeshire Building Society private equity mandates so relative weights will not tie up with the allocation tables. Figures shown for the private equity and infrastructure mandates are estimated in GBP to the quarter end date. For performance measurement purposes the benchmark allocation is equal to the actual fund allocation from 31 March 2023.

The return BlueBay MAC was estimated as the change in valuation, as the quarterly return was not available at the time of writing.

Explanation of Attribution Analysis Chart

The purpose of the attribution analysis chart is to give a visual representation of the contribution of each portfolio to the relative performance of the Total Scheme against the Total Benchmark". The contribution is apportioned between "Manager Contribution" and "Allocation Contribution. Further explanation of the terms used in the chart is given below. Contributions are calculated on a monthly basis; longer term (including quarterly) contributions are the sum of the monthly contributions.

Relative Weight - This is the difference in percentage terms of the actual Scheme allocation and benchmark allocation at both the start and end of the period. A bar greater (less) than zero indicates that the Scheme was overweight (underweight) to that portfolio.

Relative Performance - This shows the relative performance of the portfolio against its benchmark performance. A bar greater than zero indicates there was outperformance, whereas a bar less than zero indicates underperformance.

Manager Contribution - This shows the contribution at a total level of the relative performance achieved by the portfolio, taking into account the initial actual allocation. A larger allocation will lead to a greater contribution at a total level (all other things being equal).

Positive (negative) relative performance will result in positive (negative) manager contribution. Note that for passive mandates manager contributions should be close to zero, given its performance objective of tracking the benchmark. In calculation terms this is as follows:

$$\text{Manager Contribution} = (\text{Performance}_{pi} - \text{Performance}_{bi}) \times \text{Initial Actual Allocation}_{pi}$$

Allocation Contribution - The allocation contribution shows whether a portfolio underweight / overweight position has had a positive or negative effect on the Total Scheme outperformance / underperformance in relation to the Total Scheme Benchmark.

For example, an overweight allocation to a portfolio whose benchmark performance was superior to that of the Total Scheme Benchmark would result in a positive contribution. In calculation terms this is as follows:

$$\text{Allocation Contribution} = (\text{Performance}_{bi} - \text{Performance}_{bT}) \times (\text{Actual Allocation}_{pi} - \text{Benchmark Allocation}_{bi})$$

Please note that the relative return and relative weight figures shown in the chart use unrounded performance and allocation figures to calculate the relative differences. Therefore, the numbers are not directly comparable to the implied relative differences given in the performance table and allocation tables.

Key: pi = portfolio i; bi = portfolio i benchmark; bT = Total Fund benchmark

Appendix C

Investment Performance

Investment Performance to 30 September 2024

Fund and benchmark returns (%)	Q4 2023	Q1 2024	Q2 2024	Q3 2024	1 Yr	3 Yrs (p.a.)
Total	4.7	5.3	0.8	0.8	12.1	4.4
Total Benchmark	5.7	5.3	1.9	2.1	15.7	6.0

Figures shown net of fees and are based on performance provided by the Investment Managers, Link Asset Services, WM, Mercer estimates and LSEG Datastream. Includes the performance of terminated mandates.

Total Fund performances include quarterly performances for the private market managers, calculated by Mercer using a Modified Dietz approach based on data provided by these managers. Over the long term, performances are chain linked using quarterly Total Fund performances. Performance for these managers is net of illiquid mandates' fees, in GBP, and last quarter returns are provisional. Total Fund performance figures include the Cambridgeshire and Counties Bank and Cambridgeshire Building Society private equity mandates to 30 June 2021, and exclude these mandates thereafter. Total performance figures include the contribution of the equity protection strategy managed by Schroders.

For performance measurement purposes the benchmark allocation is equal to the actual fund allocation from 31 March 2023.

10 Year Performance to 30 September 2024

Fund and benchmark returns (%)	10 Yrs (p.a.)	B'mark (p.a.)
Total	7.9	9.0
Schroders - Property	4.5	4.5
Adams Street - Private Equity	16.8	13.1
HarbourVest - Private Equity	18.1	13.1
UBS - Infrastructure	-1.3	10.0
Equitix - Infrastructure	8.6	10.0
Partners Group - Infrastructure	13.1	10.0

Figures shown net of fees and are based on performance provided by the Investment Managers, Link Asset Services, WM, Mercer estimates and LSEG Datastream. Includes the performance of terminated mandates.

Total Fund performances include quarterly performances for the private market managers, calculated by Mercer using a Modified Dietz approach based on data provided by these managers. Over the long term, performances are chain linked using quarterly Total Fund performances. Performance for these managers is net of illiquid mandates' fees, in GBP, and last quarter returns are provisional. Total Fund performance figures include the Cambridgeshire and Counties Bank and Cambridgeshire Building Society private equity mandates to 30 June 2021, and exclude these mandates thereafter. Total performance figures include the contribution of the equity protection strategy managed by Schroders. Private Equity and Infrastructure figures are shown with a quarter lag.
