**Letter to Adults  
Committee 22nd Ma**

### **Council's Response:**

We acknowledge the central role that Jimmy's currently play in supporting rough sleepers and homeless people, particularly within Cambridge City. We very much welcome the commitment of Jimmy's to work in partnership with the County Council and other local HRS providers to bring about a sustainable change in services for some of the most vulnerable within our community. We realise that effective change will require embracing new ways of working and must be delivered in a planned and transparent way. We strongly believe that a partnership approach will enable us to make the best use of resources available.
