

GREATER CAMBRIDGE PARTNERSHIP
ASSEMBLY – REPORT & QUESTION
MILTON ROAD LOCAL LIAISON FORUM

AGENDA ITEM 9 – MILTON ROAD IMPROVEMENT SCHEME

The Milton Road Project is due to commence in March/April and will involve a lengthy period of construction. It will also impact on residents' parking, deliveries and attendance where required of carers and other personnel during construction and when construction is completed.

Milton Road Local Liaison Forum (LLF) seeks assurances of:

1. Publication on the website and distributed to LLF members of a clear construction plan by a timeline indicating when construction will take place on various sections of the road – that is, when will construction take place, for example, at the Kings Hedges end of the road, when the section at Arbury Road, when the Elizabeth Way Roundabout, etc, and a usefully approximate timeframe.
2. Guidance on times deliveries etc may not (due to construction) be made at particular parts of the roadway, so that residents can plan ahead for deliveries, attendance of trades people and carers, etc – this to be published on the website and distributed to LLF members and relayed to residents in those parts of the roadway affected – in a timely manner.
3. Intelligence relayed well ahead of times parking on Milton Road will not be possible due to construction, this relayed on the website, to LLF members and to residents in that part of the roadway affected.
4. Residents parking to be prioritised in those parts of Milton Road which will be impacted by removal of parking on Milton Road, most particularly 'Elizabeth' and Hurst Park Estate, with a clear timeframe of informal consultation and formal consultation in accordance with legislative requirements.
5. Under no circumstances the Project to commence without a clear and direct assurance that the mitigation measures undertaken to be delivered in relation to the removal of parking places on Milton Road will be prioritised in accordance with the residents parking scheme programme.

Dr Jocelyne A. Scutt
Cambridge City Councillor
Chair
