1. Background

- 1.1 It is a requirement to present Risk to Committee on a recommended quarterly basis and this report focuses on the Adults, Health and Commissioning, including Public Health, risks.

2. Main Issues

- 2.1 Cambridgeshire County Council has a clear and approved Risk Management framework, policy and procedures which set out the key aspects of identifying, assessing and mitigating risks for the Council which includes:

- Rating of risks are based upon their probability and their impact from a scale of 1-5 (5 being the highest level of concern) and multiplied to gain a risk score.
- Impact of risks are scored against five categories:
 - Legal and Regulatory
 - Financial
 - Service Provision
 - People and Safeguarding
 - Reputation
- The Council tolerable level of risk is set at 16, where all risks of 16 or above will be escalated for further action / decision as required. This could mean; accepting the risk rating at that time; applying additional mitigating actions and/or other actions to lower the risk level as appropriate.

- 2.2 The Adults, Health and Commissioning, including Public Health risk register contains the main strategic risks across the whole Directorate, which includes all adults' operational services, commissioning and public health. The risk register is regularly reviewed and updated by the Adults Leadership Team.
