2.2 Significant Issues

At the end of July 2019, the overall P&C position is an overspend of £3,027k.

Significant issues are detailed below:

Adults

Cost pressures continue in Adult Services similar to reports from Councils nationally. These pressures are addressed partly through application of grant funding received from central government, shown against the Strategic Management – Adults line. One of the specific purposes of these grants is to mitigate pressures in the adult social care system. In addition, further corporate mitigation was agreed by General Purposes Committee (GPC) in July 2019. In total, £4.5m of these mitigations have been applied.

At the end of May, Adults Services are forecasting an overspend of £1.1m, which is 0.7% of budget. *Older People's and Physical Disability Services* (OP/PD) have experienced increases in the unit costs of, and the number of people in, the most expensive types of care since the start of the previous financial year. This has resulted in both an opening pressure, as costs by the start of 2019/20 were higher than assumed when budgets were set in the third quarter of 2018/19, and a projected increase in that pressure in-year as the number of people in care homes has increased and the unit cost trend is expected to continue. The PD position has improved, however, as the trend of increasing numbers of people receiving care has slowed. The overall position for OP/PD is a projected overspend of £5.35m (8%).

Part of this pressure is as a result of a continuing focus on discharging people from hospitals as quickly as is appropriate, which can result in increasing numbers of people in expensive types of care, at least in the short-term. This has the further impact of increasing cost as supply in that sector is limited, exacerbated by competing in some areas with the NHS for similar types of high cost care placements. Improving discharge processes and integrated commissioning are key mitigations being worked on, along with an increased use of block contracts and the adults Positive Challenge Programme work aimed at enabling people to live at home for longer.

An overspend is also forecast in Mental Health Services (including *Mental Health Commissioning*) totalling £158k, where similar pressures are affecting the costs of elderly people in receipt of mental health care.

Children's

Children in Care is anticipating a pressure of c£350k across Staying Put (£133k) and Unaccompanied Asylum Seeking Children (Over 18) budgets (£300k). In both areas the central government grant does not match anticipated expenditure. These pressures are offset in part by a forecast underspend across Fostering, Supervised Contact and the Corporate Parenting Teams. The service is working to mitigate these pressures by reviewing all applicable arrangements in order to attempt to bring these into line with the amount of government funding available.

Children in Care Placements is forecasting a year end overspend of £650k, following an additional budget allocation of £350k as approved by GPC and the application of £400k of additional social care grant. Recent activity in relation to gang-related crime has resulted in additional high cost secure placements being required. In addition, the numbers of children in care are yet to decrease to budgeted levels; though this is still expected in-year. In the last couple of months, 16 unaccompanied asylum seekers have needed to be accommodated. Current commitments are in the region of £1.7m and as such significant work is underway to reduce high cost placements, however the placement market is saturated, with IFA providers having no vacancies which results in children going into higher cost residential placements. We are seeing a net increase in, in-house fostering placements which is contributing towards planned savings.

Legal Proceedings is forecasting a £400k overspend. This is directly linked to the number of care proceedings per month which increased by 72% for the period February to April 2019 compared to the preceding 10 months. There are currently 183 live care proceedings and whilst we saw a reduction in new cases in May/June 2019, legacy cases and associated costs are still working through the system and causing significant pressure on the legal budget. The spike in proceedings is related to the new model of specialist teams, and greater scrutiny and management oversight. This has resulted in the identification of children for whom more urgent action was required. This is an illustration of the way in which the new model will improve services and outcomes in general. Following legal orders we are able to move to securing permanency for children.

Education

Home to School Transport – Special is forecasting an overspend of £300k. We are continuing to see significant increases in pupils with Education Health Care Plans (EHCPs) and those attending special schools, leading to a corresponding increase in transport costs.

SEND Specialist Services has previously forecast an over spend of £300k within the Statutory Assessment Team due to the ceasing of a grant that has funded additional capacity in previous years. GPC has now approved an allocation of £300k to meet this shortfall alongside an additional £360k to invest in SEND Services to provide capacity to meet statutory deadlines for EHCP assessments and reviews.

Dedicated Schools Grant (DSG) – Initial in-year pressures have been forecast for a number of DSG funded High Needs Block budgets including funding for special schools and units, top-up funding for mainstream schools and Post-16 provision, and out of school tuition. As previously reported In 2018/19 we saw a total DSG overspend across SEND services of £8.7m which, combined with underspends on other DSG budgets, led to a deficit of £7.2m carried forward into 2019/20. Given the ongoing increase in numbers of pupils with EHCPs it is likely that a similar overspend will occur in 2019/20, however this will become clearer as we move towards the start of the new academic year and planned actions to deliver savings are implemented. Current estimates forecast an in-year pressure of approximately

£7m. This is a ring-fenced grant and as such overspends do not currently affect the Council's bottom line but are carried forward as a deficit balance into the next year.

2.3 Additional Income and Grant Budgeted this Period

(De Minimis reporting limit = £160,000)

A full list of additional grant income anticipated and reflected in this report can be found in [appendix 3](#).

2.4 Virements and Transfers to / from Reserves (including Operational Savings Reserve) (De Minimis reporting limit = £160,000)

A list of virements made in the year to date can be found in [appendix 4](#).

2.5 Key Activity Data

The Actual Weekly Costs for all clients shown in section 2.5.1-2 are calculated based on all clients who have received a service, are receiving a service, or we plan will receive a service. Some clients will have ceased receiving a service in previous months, or during this month, or we will have assumed an end date in the future.

2.5.3 Adult Social Care

In the following key activity data for Adults & Safeguarding, the information given in each column is as follows:

- Budgeted number of care packages: this is the number of full-time equivalent (52 weeks) service users anticipated at budget setting
- Budgeted average unit cost: this is the planned unit cost per service user per week, given the budget available
- Actual care packages and cost: these figures are derived from a snapshot of the commitment record at the end of the month and reflect current numbers of service users and average cost

A consistent format is used to aid understanding, and where care types are not currently used in a particular service those lines are greyed out.

The direction of travel compares the current month's figure with the previous months.

2.5.3.1 Key activity data to end of July 2019 for the Learning Disability Partnership is shown below:

2019/20 In Year Pressures/Slippage

At the end of July 2019 the capital programme forecast underspend continues to be zero. The level of slippage and underspend in 2019/20 is currently anticipated to be £3.43m and as such has not yet exceeded the revised Capital Variation Budget of £13.4m. A forecast outturn will not be reported unless this happens.

Details of the capital variances currently forecast can be found in appendix 6

APPENDIX 2 – Commentary on Outturn Position

Narrative is given below where there is an adverse/positive variance greater than 2% of annual budget or £100,000 whichever is greater.

Service	Budget 2019/20	Actual	Outturn Variance	
	£'000	£'000	£'000	%
1) Strategic Management - Adults	-1,443	2,213	-4,539	-315%
<p>Around £3m of grant funding has been applied to partially mitigate opening pressures in Older People's and Physical Disabilities Services detailed in note 2 and 3 below, in line with one of the purposes of the grant funding, in addition to a number of other underspends in the services within this budget heading.</p> <p>A further £1.35m of in-year funding was agreed by GPC in July 2019 and applied to this line to provide further mitigation to cost pressures.</p>				
2) Physical Disabilities Services	11,932	4,865	32	0%
<p>An overspend of £32k is forecast for Physical Disabilities services. The improvement of £254k from the position reported last month is due to a reduction in the number of clients receiving community-based care. This is offsetting the carried forward pressure from 2018/19 relating to increases in client numbers and the number of people with more complex needs requiring more expensive types of care.</p> <p>The total savings expectation in this service for 2019/20 is £269k, and this is expected to be delivered in full through the Adults Positive Challenge Programme of work, designed to reduce demand, for example through a reablement expansion and increasing technology-enabled care to maintain service user independence.</p>				
3) Older People's Services	57,271	22,285	5,319	9%
<p>An overspend of £5,319k continues to be forecast for Older People's Services. This reflects the full-year effect of the overspend in 2018/19 and additional pressures expected to emerge over the course of 2019/20.</p> <p>It was reported during 2018/19 that the cost of providing care was generally increasing, with the unit costs of most types of care increasing month-on-month and the number of people requiring residential care was also going up. The focus on discharging people from hospitals as quickly as possible to alleviate pressure on the broader health and social care system can result in more expensive care for people, at least in the shorter-term, and in the Council funding care placements that were appropriate for higher levels of need at the point of discharge through the accelerated discharge process. The full-year-effect of the pressures that emerged in 2018/19 is £2.8m.</p> <p>Residential placements are typically £50 per week more than 12 months ago (8%), and nursing placements are typically around £100 per week more expensive (15%). Within this, there was a particularly stark increase particularly in nursing care in the last half of 2018/19 – around 75% of the increase seen in a nursing bed cost came between November and March, and so the full impact was not known when business planning was being undertaken by committees. The number of people in residential and nursing care increased over 2018/19 but around 30% more than anticipated, again concentrated in the second half of the year.</p> <p>This trend is continuing into 2019/20. We are including an estimate in the forecast of the additional pressure that will be seen by year end as a result of the upwards trend in price and service user numbers, particularly in residential and nursing care (£2.2m).</p> <p>The total savings expectation in this service for 2019/20 is £3.1m, and this is expected to be delivered in full through the Adults Positive Challenge Programme of work, designed to reduce demand, for example through a reablement expansion and increasing technology-enabled care to maintain independence.</p>				

Service	Budget 2019/20	Actual	Outturn Variance	
	£'000	£'000	£'000	%
Older People's Services continued				
<p>In addition to the work embodied in the Adults Positive Challenge Programme to intervene at an earlier stage so the need for care is reduced or avoided, work is ongoing within the Council to bolster the domiciliary care market, and the broader care market in general:</p> <ul style="list-style-type: none"> • Further development of the Council's integrated brokerage team to source care packages; • Providers at risk of failure are provided with some intensive support to maximise the continuity of care that they provide; • The Reablement service has been greatly expanded and has a role as a provider of last resort for care in people's homes; • The Care Homes project is working with providers to identify opportunities to increase residential and nursing home capacity across the county, particularly through expanding block capacity • Maintaining investment from money announced for councils in the budget to purchase additional block capacity with domiciliary care and care home providers – this should expand capacity in the market by giving greater certainty of income to providers. 				
4) Mental Health Services	13,205	3,765	267	2%
<p>Mental Health Services are forecasting an overspend of £267k on operational budgets. Rising placement numbers for elderly mental health bed-based care at increasing unit costs is creating a pressure on budgets over and above the level of demand funding allocated.</p> <p>A provision is made in the forecast for a potential backdated recharge for a high cost service user in Adult Mental Health.</p> <p>Further mitigation of £110k has been identified in Mental Health Commissioning.</p>				
5) Central Commissioning - Adults	11,095	-4,240	118	1%
<p>An overspend of £118k is forecast on Central Commissioning Adults.</p> <p>This is due to a delay in the realisation of savings on the Housing Related Support contracts; some contracts have been extended until the service is retendered. The full saving is still forecast to be delivered by 2021/22 and work is ongoing as to how best to deliver this service. The in-year pressure on housing related support is £274k, however, this has been mitigated in part, including a £48k saving from retendering the block cars contract for domiciliary care.</p>				
6) Mental Health Commissioning	3,696	1,300	-110	-3%
<p>Mental Health Commissioning is forecasting an underspend of £110k. There is an in-year windfall as a result of credits due from two external providers relating to prior year activity (£90k). Additionally, a number of efficiencies have been achieved against current year contracts. Whilst these only have a relatively immaterial impact on the 2019/20 financial position, any ongoing efficiencies will be factored in to Business Planning for 2020/21 onwards.</p>				
7) Children in Care Placements	23,419	6,156	650	3%
<p>The revised Children in Care Placements outturn forecast is a £650k overspend. This is following an additional budget allocation of £350k as approved by GPC and the application of £400k of additional social care grant. Actual commitments are currently in the region of £1.7m overspent as a result of:</p> <ul style="list-style-type: none"> • Recent activity in relation to gang-related crime has led to additional costs and high cost secure placements being required [at an average weekly cost of £7000.00 per child]. • 16 unaccompanied asylum seekers became Looked After in the last two months. • An increase in the number of Children in Care in external placements [+24%] against a projected reduction. In real terms, as at 30th July 2019 we have a +18 number of children in external placements compared to 31 March 2019.

- The foster placement capacity both in house and externally is overwhelmed by demand both locally and nationally. The real danger going forward is that the absence of appropriate fostering provision by default, leads to children and young people's care plans needing to change to residential services provision.

Mitigating factors moving forward include:

- Monthly Placement Mix and Care Numbers meeting chaired by the Service Director and attended by senior managers. This meeting focuses on activity aimed at reducing the numbers in care, length of care episodes and reduction in the need for externally commissioned provision.
- Reconstitution of panels to ensure greater scrutiny and supportive challenge.
- Introduction of twice weekly conference calls per Group Manager on placement activity followed by an Escalation Call each Thursday chaired by the Head of Service for Commissioning, and attended by each of the CSC Heads of Service as appropriate, Fostering Leads and Access to Resources.
- Authorisation processes in place for any escalation in resource requests.
- Service Director authorisation for any residential placement request.
- Monthly commissioning intentions (sufficiency strategy work-streams), budget and savings reconciliation meetings attended by senior managers accountable for each area of spend/practice. Enabling directed focus on emerging trends and appropriate responses, ensuring that each of the commissioning intentions are delivering as per work-stream and associated accountable officer. Production of datasets to support financial forecasting (in-house provider services and Access to Resources).
- Investment in children's social care commissioning to support the development of robust commissioning pseudo-dynamic purchasing systems for external spend. These commissioning models coupled with resource investment will enable more transparent competition amongst providers bidding for individual care packages, and therefore support the best value offer through competition driving down costs.
- Provider meetings scheduled through the Children's Placement Service (Access to Resources) to support the negotiation of packages at or post placement. Working with the Contracts Manager to ensure all placements are funded at the appropriate levels of need and cost.
- Regular High Cost Placement Review meetings to ensure children in externally funded placements are actively managed in terms of the ability of the provider to meet set objectives/outcomes, de-escalate where appropriate [levels of support] and maximizing opportunities for discounts (length of stay/siblings/ volume) and recognising potential lower cost options in line with each child's care plan.

Service	Budget 2019/20	Actual	Outturn Variance	
	£'000	£'000	£'000	%
Children in Care Placements continued <ul style="list-style-type: none"> • Additional investment in the recruitment and retention of the in-house fostering service to significantly increase the net number of mainstream fostering households over a three year period, as of 2018. • Access to the Staying Close, Staying Connected Department for Education (DfE) initiative being piloted by a local charity offering 16-18 year old Children in Care Placements the opportunity to step-down from residential provision, to supported community-based provision which will transfer to their own tenancy post 18. • Greater focus on those Children in Care Placements for whom permanency or rehabilitation home is the plan, to ensure timely care episodes and managed exits from care. 				
8) Coroners	1,117	421	235	21%
<p>Coroners is forecasting a pressure of £235k. This is due to the increasing complexity of cases being referred to the coroner that require inquest and take time to conclude, requiring more specialist reports and advice and the recruitment of additional staff to complete investigations and prevent backlogs of cases building up. The cost of essential contracts for body storage, pathology, histology and toxicology has also increased.</p>				
9) Children in Care	15,760	5,256	350	2%
<p>The Children in Care budget is anticipating an overspend of c£350k.</p> <p>The UASC budget is forecasting a pressure of £300k. This is mainly in the over 18 budget due to the increased number of children turning 18 and acquiring care leaver status. The Staying Put budget is forecasting a pressure of £133k as a result of a number of staying put arrangements agreed for Cambridgeshire children in external placements. The costs associated with supporting both these groups of young people are not fully covered by the grants from the Home Office and DfE respectively. The above pressures are offset by a forecast underspend of -£83k across Fostering, Supervised Contact and the Corporate Parenting Teams.</p> <p>Actions being taken: For UASC we are continuing to review placements and are moving young people as appropriate to provisions that are more financially viable in expectation of a status decision. We are also reviewing our young people who are appeal rights exhausted. These reviews are likely to see a drop in accommodation spending as the Council discharges its duty to these young people in line with our statutory responsibilities under the immigration act. We also continue to review all staying put costs for young people in external placements to ensure that financial packages of support are needs led and compliant with Council policy.</p>				
10) Legal Proceedings	1,970	716	400	20%
<p>The Legal Proceedings budget is forecasting a £400k overspend.</p> <p>Numbers of care proceedings per month increased by 72% for the period February to April 2019 compared to the preceding 10 months. The increase was mainly due to care applications made in March, April and May, particularly in the North where four connected families saw 16 children coming into our care with sexual abuse and neglect the main concerns. There are currently (end June) 183 live care proceedings and whilst we saw a reduction in new cases in May/June 2019, legacy cases and associated costs are still working through the system and causing significant pressure on the legal budget.</p> <p>Actions being taken:</p> <p>Work is ongoing to manage our care proceedings and CP Plans and better track the cases through the system to avoid additional costs due to delay. However, due to the time lag in cases coming to court it will be a number of months before the increases seen earlier in the year work their way through the system.</p>				

Service	Budget 2019/20	Actual	Outturn Variance

11) Funding to Special Schools & Units, High Needs Top Up Funding and Out of School Tuition	35,101	14,440	7,000	20%
<p>Funding to Special Schools and Units - £3.0m DSG overspend As the number of children and young people with an EHCP increase, along with the complexity of need, we see additional demand for places at Special Schools and High Needs Units. The extent of this is such that a significant number of spot places have been agreed and the majority of our Special Schools are now full.</p> <p>High Needs Top Up Funding - £2.5m DSG overspend As well as the overall increases in EHCP numbers creating a pressure on the Top-Up budget, the number of young people with EHCPs in Post-16 Further Education is continuing to increase significantly as a result of the provisions laid out in the 2014 Children and Families Act. This element of provision is causing the majority of the forecast overspend on the High Needs Top-Up budget.</p> <p>Out of School Tuition - £1.5m DSG overspend There has been a continuing increase in the number of children with an EHCP who are awaiting a permanent school placement.</p> <p>Several key themes have emerged throughout the last year, which have had an impact on the need for children to receive a package of education, sometimes for prolonged periods of time:</p> <ul style="list-style-type: none"> • Casework officers were not always made aware that a child's placement was at risk of breakdown until an emergency annual review was called. • Casework officers did not have sufficient access to SEND District Team staff to prevent the breakdown of an education placement. • There were insufficient specialist placements for children whose needs could not be met in mainstream school. • There was often a prolonged period of time where a new school was being sought, but where schools put forward a case to refuse admission. • In some cases of extended periods of tuition, parental preference was for tuition rather than in-school admission. <p>It has also emerged that casework officers do not currently have sufficient capacity to fulfil enough of a lead professional role which seeks to support children to return to mainstream or specialist settings.</p> <p><u>Mitigating Actions:</u> A SEND Project Recovery team has been set-up to oversee and drive the delivery of the SEND recovery plan to address the current pressure on the High Needs Block.</p>				
12) Home to School Transport – Special	9,821	1,966	300	3%
<p>Home to School Transport – Special is forecasting an £300k overspend for 2019/20. We are continuing to see significant increases in pupils with EHCPs and those attending special schools, leading to a corresponding increase in transport costs. Between April 2018 and March 2019 there was an 11% increase in both pupils with EHCPs and pupils attending special schools, which is a higher level of growth than in previous years. Alongside this, we are seeing an increase in complexity of need resulting in assessments being made by the child/young person's Statutory Assessment Case Work Officer that they require individual transport, and, in many cases, a passenger assistant to accompany them.</p> <p>While only statutory provision is provided in this area, and charging is in line with our statistical neighbours, if growth continues at the same rate as in 2018/19 then it is likely that the overspend will increase from what is currently reported. This will be clearer in September or October once routes have been finalised for the 19/20 academic year.</p>				
Service	Budget 2019/20	Actual	Outturn Variance	

	£'000	£'000	£'000	%
Home to School Transport – Special continued <p>A strengthened governance system around requests for costly exceptional transport requests introduced in 2018/19 is resulting in the avoidance of some of the highest cost transports as is the use of personal transport budgets offered in place of costly individual taxis. Further actions being taken to mitigate the position include:</p> <ul style="list-style-type: none"> • An ongoing review of processes in the Social Education Transport and SEND teams with a view to reducing costs • An earlier than usual tender process for routes starting in September to try and ensure that best value for money is achieved • Implementation of an Independent Travel Training programme to allow more students to travel to school and college independently. 				
13) Financing DSG	-60,696	-20,323	-7,000	-11%
<p>Within P&C, spend of £60.7m is funded by the ring fenced Dedicated Schools Grant. Current pressures on Funding to Special Schools and Units (£3.0m), High Needs Top Up Funding (£2.5m) and Out of School Tuition (£1.5m) equate to £7m and as such will be charged to the DSG.</p> <p>The final DSG balance brought forward from 2018/19 was a deficit of £7,171k.</p>

6.1 Capital Expenditure

The schemes with significant variances (>£250k) either due to changes in phasing or changes in overall scheme costs can be found in the following table:

Revised Budget for 2019/20	Forecast Spend - Outturn (July)	Forecast Spend - Outturn Variance (July)	Variance Last Month (June)	Movement	Breakdown of Variance	
					Under / overspend	Reprogramming / Slippage
£'000	£'000	£'000	£'000	£'000	£'000	£'000
Basic Need - Primary						
Histon Additional Places						
400	3,000	2,600	0	2,600	0	2,600
Although delays were initially anticipated on this project as it involves building a replacement for the current Histon & Impington Infant School on a site in the Green Belt, the Buxhall Farm scheme has accelerated and construction will now take place in year. While the replacement school will not be required until 2021, commencing work at this point will result in lower construction costs than if the project were delayed.						
Bassingbourn Primary School

Basic Need - Secondary						
Fenland Secondary						
5,000	600	-4,400	-400	-4,000	0	-4,400
None of the applications submitted to the Department for Education (DfE) to establish the new secondary as a free school were approved. Discussions are on-going over the extent and scale of highways investment necessary to improve access to and from the site. Until these are resolved, the final specification and associated cost of the project cannot be determined						
Other changes across all schemes (<250k)						
-	-	-807	-654	-153	-604	-203
Other changes below £250k make up the remainder of the scheme variances.						

P&C Capital Variation

The Capital Programme Board recommended that services include a variations budget to account for likely slippage in the capital programme, as it is sometimes difficult to allocate this to individual schemes in advance. The allocation for P&C's negative budget has been calculated as below, updated for the transfer of Cultural and Community Services. Slippage and underspends expected in 2019/20 are currently resulting in £3.76m of the capital variations budget being utilised.

2019/20					
Service	Capital Programme Variations Budget £000	Forecast Outturn Variance (July 2019) £000	Capital Programme Variations Budget Used £000	Capital Programme Variations Budget Used %	Revised Outturn Variance (July 2019) £000
